pashtuns in pakistan: The Pashtun Question Abubakar Siddique, 2014-06-15 Most contemporary journalistic and scholarly accounts of the instability gripping Afghanistan and Pakistan have argued that violent Islamic extremism, including support for the Taliban and related groups, is either rooted in Pashtun history and culture, or finds willing hosts among their communities on both sides of the Afghanistan-Pakistan border. Abubakar Siddique sets out to demonstrate that the failure, or even unwillingness, of both Afghanistan and Pakistan to absorb the Pashtuns into their state structures and to incorporate them into the economic and political fabric is central to these dynamics, and a critical failure of nation- and state-building in both states. In his book he argues that religious extremism is the product of these critical failures and that responsibility for the situation lies to some degree with the elites of both countries. Partly an eye-witness account and partly meticulously researched scholarship, *The Pashtun Question* describes a people whose destiny will shape the future of Pakistan and Afghanistan.

pashtuns in pakistan: Pakistan, Regional Security and Conflict Resolution Farooq Yousaf, 2020-10-20 This book explains how colonial legacies and the postcolonial state of Pakistan negatively influenced the socio-political and cultural dynamics and the security situation in Pakistan's Pashtun 'tribal' areas, formerly known as the Federally Administered Tribal Areas (FATA). It offers a local perspective on peace and conflict resolution in Pakistan's Pashtun 'tribal' region. Discussing the history and background of the former-FATA region, the role of Pashtun conflict resolution mechanism of Jirga, and the persistence of colonial-era Frontier Crimes Regulations (FCR) in the region, the author argues that the persistence of colonial legacies in the Pashtun 'tribal' areas, especially the FCR, coupled with the overarching influence of the military on security policy has negatively impacted the security situation in the region. By focusing on the Jirga and Jirga-based Lashkars (or Pashtun militias), the book demonstrates how Pashtuns have engaged in their own initiatives to handle the rise of militancy in their region. Moreover, the book contends that, even after the introduction of constitutional reforms and FATA's merger with the Khyber Pakhtunkhwa province, little has changed in the region, especially regarding the treatment of 'tribal' Pashtuns as equal citizens of Pakistan. This book explains, in detail, why indigenous methods of peace and conflict resolution, such as the Jirga, could play some role towards long-term peace in the South Asian region. Historically and contextually informed with a focus on North-West Pakistan, this book will be of interest to academics researching South Asian Studies, International Relations, Peace and Conflict Studies, terrorism, and traditional justice and restorative forms of peace-making.

pashtuns in pakistan: Political and Social Change in Pakistan's Tribal Areas Naveed Ahmad Shinwari, 2025-05-23 This book analyses agency and place of youth within the Pashtun tribal social order in Pakistan. It looks at Pashtun youth as a separate social category, analysing their changing trends of political leadership in Pakistan's former Federally Administered Tribal Areas (FATA). Presenting an in-depth ethnographic inquiry into the intricate dynamics of political leadership manifest among the Pashtun youth hailing from the erstwhile FATA, this book adds more depth to the understanding of political developments and the peculiar relationship between FATA and Pakistan in general. The author argues that events following the Soviet invasion and post-9/11 have disrupted traditional age-based relations in Pashtun society, enabling young adults to assert their political agency in unprecedented ways. This book demonstrates how Pashtun youth have

emerged at the forefront of politics through avenues such as Talibanisation, migration, elite politics, and the Pashtun social movement. These young individuals are redefining politics in FATA and across Pakistan, playing a pivotal role in shaping new relationships between the Pashtun community and the Pakistani nation. By demystifying longstanding misconceptions and stereotypes perpetuated since British colonial times and post-independence Pakistan and the evolving political dynamics in the context of the post-withdrawal phase of US forces from Afghanistan in August 2021, this book provides new empirical evidence and insights into social injustices faced by Pashtun youth. Analysing themes such as political alliances among diverse youth groups, identity politics, expressions of agency, migration, and the importance of urban spaces for activism and rights claims, the study sheds light on the dynamic role of Pashtun youth in contemporary South Asia, making it essential reading for understanding the region's socio-political landscape. It will be of interest to researchers studying politics and society in Pakistan and Afghanistan, anthropology, and post-conflict reconstruction in South Asia.

pashtuns in pakistan: *The Rise and Decline of the Insurgency in Pakistan's FATA* Shahzad Akhtar, 2022-12-16 This book analyzes the emergence, rise, and decline of insurgency by the Pakistani Taliban in Pakistan's North-Western region, also known as Federally Administered Tribal Areas (FATA). It provides a detailed account of the rise and decline of the FATA insurgency and also examines aftereffects of the insurgency. Offering an in-depth analysis of how insurgency in the FATA began in 2004 after Pakistan entered its military forces into the tribal areas, the author illustrates that the insurgency erupted when state repression on masses is combined with a disruption of the previous modus vivendi centered on co-optation of local elites. In the following years, the insurgency became so powerful that most of the FATA region fell under the control of the insurgents. The book further argues that a weak counterinsurgency strategy by the Pakistani government characterised by the overzealous use of force and a failure to win the support of local communities led the insurgency to become stronger and expand its control. Furthermore, the analysis reveals that a more robust counterinsurgency strategy, relying more on a determined and a judicious use of force and attempts to gain the trust and support of local communities, adopted in the later years led to the collapse of the insurgency. In short, this book offers an explanation of what makes an insurgency more likely to occur and how insurgency escalates and declines. In addition, this book sheds light on recent development in FATA including the merger of FATA with the mainstream Pakistan, the rise of the Pashtun Tahafuz Movement, a non-violent protest movement, and the resurgence of the Pakistani Taliban especially after the Afghan Taliban capture of Kabul in the wake of US withdrawal of forces in Afghanistan. This book is a timely addition to the literature on South Asian Politics and Security Studies.

pashtuns in pakistan: *Pakistan* Muhammad Anwar, Ebad Baig, 2012-12 PAKISTAN Muhammad Anwar and Ebad Baig The creation of Pakistan on August 14, 1947, was a rare and unprecedented event in the study of politics that the world has ever seen. However, the Indian leadership never accepted the creation of Pakistan, and its security remained threatened even after a long period of existence because of the Kashmir dispute, which was left unresolved at the time of the partition of the subcontinent. The worst happened when Pakistan's founding father passed away on September 11, 1948, followed by the assassination of the first prime minister of Pakistan, Liaquat Ali Khan, on October 16, 1951. The weak and shrewd political leadership eventually paved the way for the military intervention, and Pakistan remained under the dictatorial governments for more than three decades between 1958 and 2008. As a result of the political void, Pakistan was dismembered in December 1971 by the direct Indian military action in East Pakistan while the United States played the role of a spectator. Despite the US duplicity in 1971, Pakistan remained engaged in fighting the US proxy war in Afghanistan since 1979 and was facing the fierce situation in the hands of the terrorists who were expressing their anger and revenge through bomb blasts and suicidal attacks all over the country. This book examines Pakistan's journey through the turbulent waters of the history right from 1947 to 2012, pinpointing what went wrong during the whole passage and those responsible for the disasters that the Pakistani nation has to painfully endure continuously during all these years. This is to allow the military leaders to review and fix the institution burdened with the task of defending the homeland and the political leadership to walk through this mirror for making Pakistan a strong and modern Muslim state in the world in line with the vision of Mohammad Ali Jinnah.
