pilgrim at tinker creek sparknotes: Seeing and Believing Stuart C. Devenish, 2012-05-23 In a cinematic culture where multiple visions of reality play at the same time, it is critical that Christian believers know how to confidently identify and discern, among other stories, the Jesus-story that defines their most important commitment in life. Using the optical metaphor of the eye of faith, the author identifies the spiritual life as a visual life. Through themes such as looking through Jesus' eyes, the bible as a visionary text, and the church as a wide-eyed people, he builds a connecting bridge between the seeing-soul in Christian spirituality, and the twenty-first century as the age of the eye. The key words for this exploration are spirituality, discipleship, insight, luminescence, and optical therapy. The author proposes the need for a catechism of the eye that will lead to the renewal of Christian ministry, spirituality, discipleship, and identity.

pilgrim at tinker creek sparknotes: *Inner Animalities* Eric Daryl Meyer, 2018-07-03 Most theology proceeds under the assumption that divine grace works on human beings at the points of our supposed uniqueness among earth's creatures—our freedom, our self-awareness, our language, or our rationality. *Inner Animalities* turns this assumption on its head. Arguing that much theological anthropology contains a deeply anti-ecological impulse, the book draws creatively on historical and scriptural texts to imagine an account of human life centered in our creaturely commonality. The tendency to deny our own human animality leaves our self-understanding riven with contradictions, disavowals, and repressions. How are human relationships transformed when God draws us into communion through our instincts, our desires, and our bodily needs? Meyer argues that humanity's exceptional status is not the result of divine endorsement, but a delusion of human sin. Where the work of God knits human beings back into creaturely connections, ecological degradation is no longer just a matter of bodily life and death, but a matter of ultimate significance. Bringing a theological perspective to the growing field of Critical Animal Studies, *Inner Animalities* puts Gregory of Nyssa and Karl Rahner in conversation with Jacques Derrida, Giorgio Agamben, Kelly Oliver, and Cary Wolfe. What results is not only a counterintuitive account of human life in relation with nonhuman neighbors, but also a new angle into ecological theology.
