rabbi finkelstein lectures: *The Artless Jew* Kalman P. Bland, 2001-07-02 Conventional wisdom holds that Judaism is indifferent or even suspiciously hostile to the visual arts due to the Second Commandment's prohibition on creating graven images, the dictates of monotheism, and historical happenstance. This intellectual history of medieval and modern Jewish attitudes toward art and representation overturns the modern assumption of Jewish iconophobia that denies to Jewish culture a visual dimension. Kalman Bland synthesizes evidence from medieval Jewish philosophy, mysticism, poetry, biblical commentaries, travelogues, and law, concluding that premodern Jewish intellectuals held a positive, liberal understanding of the Second Commandment and did, in fact, articulate a certain Jewish aesthetic. He draws on this insight to consider modern ideas of Jewish art, revealing how they are inextricably linked to diverse notions about modern Jewish identity that are themselves entwined with arguments over Zionism, integration, and anti-Semitism. Through its use of the past to illuminate the present and its analysis of how the present informs our readings of the past, this book establishes a new assessment of Jewish aesthetic theory rooted in historical analysis. Authoritative and original in its identification of authentic Jewish traditions of painting, sculpture, and architecture, this volume will ripple the waters of several disciplines, including Jewish studies, art history, medieval and modern history, and philosophy.

rabbi finkelstein lectures: The Bible's Top 50 Ideas Dov Peretz Elkins, Abigail Treu,

2013-09-01 All the important moral ideas of the modern world are based on the key biblical verses analyzed in this collection. What generally happens when someone picks up a copy of the Bible? Often it is put down within seconds because readers see endless verses which turn them off. Finally, here is an accessible book about the Bible that focuses on its great moral principles: --Human beings are created in the image of God. --Love your neighbor as yourself. --You shall not stand idly by the blood of your neighbor. --You shall love the Lord your God with all your heart and with all your soul and with all your might. --Justice, justice shall you pursue. Dov Peretz Elkins believes that if a reader understands fifty verses of the five thousand in the Bible (only 1 percent), he or she will begin to grasp the essence of the Bible. This remarkable explanation of the Bible shows readers how it can serve as a light that illuminates a path through the confusion and problems in their personal and communal lives. The result is a life that is better and more serious--a life with meaning, purpose, and direction. The Bible's Top 50 Ideas: --Presents the Bible's essential ideas in readable, engaging fashion. --Focuses on the contemporary value of the Bible. --Uses commentaries and explanations from sources that are modern as well as ancient, Christian as well as Jewish, and popular as well as scholarly. Elkins not only simplifies the Bible but also demonstrates how its fundamental ideas and concepts have inspired four thousand years of civilization to follow its teachings. The result is a moral, legal, and literary foundation that remains the basis of all democratic and principled societies to this day.
