ruby bridges painting: *American Mirror* Deborah Solomon, 2013-11-05 A NEW YORK TIMES BOOK REVIEW NOTABLE BOOK OF THE YEAR A FINALIST FOR THE LOS ANGELES TIMES BOOK PRIZE IN BIOGRAPHY AND SHORTLISTED FOR THE PEN/JACQUELINE BOGRAD WELD AWARD FOR BIOGRAPHY Welcome to Rockwell Land, writes Deborah Solomon in the introduction to this spirited and authoritative biography of the painter who provided twentieth-century America with a defining image of itself. As the star illustrator of *The Saturday Evening Post* for nearly half a century, Norman Rockwell mingled fact and fiction in paintings that reflected the we-the-people, communitarian ideals of American democracy. Freckled Boy Scouts and their mutts, sprightly grandmothers, a young man standing up to speak at a town hall meeting, a little black girl named Ruby Bridges walking into an all-white school—here was an America whose citizens seemed to believe in equality and gladness for all. Who was this man who served as our unofficial artist in chief and bolstered our country's national identity? Behind the folksy, pipe-smoking façade lay a surprisingly complex figure—a lonely painter who suffered from depression and was consumed by a sense of inadequacy. He wound up in treatment with the celebrated psychoanalyst Erik Erikson. In fact, Rockwell moved to Stockbridge, Massachusetts so that he and his wife could be near Austen Riggs, a leading psychiatric hospital. What's interesting is how Rockwell's personal desire for inclusion and normalcy spoke to the national desire for inclusion and normalcy, writes Solomon. His work mirrors his own temperament—his sense of humor, his fear of depths—and struck Americans as a truer version of themselves than the sallow, solemn, hard-bitten Puritans they knew from eighteenth-century portraits. Deborah Solomon, a biographer and art critic, draws on a wealth of unpublished letters and documents to explore the relationship between Rockwell's despairing personality and his genius for reflecting America's brightest hopes. The thrill of his work, she writes,

is that he was able to use a commercial form [that of magazine illustration] to thrash out his private obsessions. In *American Mirror*, Solomon trains her perceptive eye not only on Rockwell and his art but on the development of visual journalism as it evolved from illustration in the 1920s to photography in the 1930s to television in the 1950s. She offers vivid cameos of the many famous Americans whom Rockwell counted as friends, including President Dwight Eisenhower, the folk artist Grandma Moses, the rock musician Al Kooper, and the generation of now-forgotten painters who ushered in the Golden Age of illustration, especially J. C. Leyendecker, the reclusive legend who created the Arrow Collar Man. Although derided by critics in his lifetime as a mere illustrator whose work could not compete with that of the Abstract Expressionists and other modern art movements, Rockwell has since attracted a passionate following in the art world. His faith in the power of storytelling puts his work in sync with the current art scene. *American Mirror* brilliantly explains why he deserves to be remembered as an American master of the first rank.

ruby bridges painting: *Small Shoes, Great Strides* Vaunda Micheaux Nelson, 2023-11-07 On November 14, 1960, first graders Leona Tate, Tessie Prevost, and Gail Etienne stepped into history

by going to school. Escorted by U.S. Marshals and facing swarms of shouting protestors, they became the first children in New Orleans to integrate a previously all-white school, just ten minutes before Ruby Bridges. Like Ruby, the trio faced crowds of protestors fighting against public school desegregation efforts and relied on US Marshals to keep them safe. That day was just the beginning of their journey. Despite hate mail, death threats, and ongoing protests, Leona, Tessie, and Gail continued attending McDonogh No. 19 Public School. To ensure their safety, classroom windows were covered with paper, and they weren't allowed outside for recess. With the love and protection of their parents, the Marshals, and their kindly teacher, the girls carried on and formed a close bond, becoming friends for life. Award-winning author Vaunda Micheaux Nelson conducted extensive interviews to bring this little-known story from the Civil Rights Movement to young readers. With vivid illustrations by fine artist Alex Bostic that highlight courage and determination, this book celebrates how three little girls made great strides to ensure all children could receive the education they deserve.

ruby bridges painting: Hamilton Heights and Sugar Hill Davida Siwisa James, 2024-04-02 Explores four centuries of colonization, land divisions, and urban development around this historic landmark neighborhood in West Harlem It was the neighborhood where Alexander Hamilton built his country home, George Gershwin wrote his first hit, a young Norman Rockwell discovered he liked to draw, and Ralph Ellison wrote *Invisible Man*. Through words and pictures, *Hamilton Heights and Sugar Hill* traces the transition of this picturesque section of Harlem from lush farmland in the early 1600s to its modern-day growth as a unique Manhattan neighborhood highlighted by stunning architecture, Harlem Renaissance gatherings, and the famous residents who called it home. Stretching from approximately 135th Street and Edgecombe Avenue to around 165th, all the way to the Hudson River, this small section in the Heights of West Harlem is home to so many significant events, so many extraordinary people, and so much of New York's most stunning architecture, it's hard to believe one place could contain all that majesty. Author Davida Siwisa James brings to compelling literary life the unique residents and dwelling places of this Harlem neighborhood that stands at the heart of the country's founding. Here she uncovers the long-lost history of the transitions to Hamilton Grange in the aftermath of Alexander Hamilton's death and the building boom from about 1885 to 1930 that made it one of Manhattan's most historic and architecturally desirable neighborhoods, now and a century ago. The book also shares the story of the LaGuardia High School of Music & Art, one of the first in the nation to focus on arts and music. The author chronicles the history of the James A. Bailey House, as well as the Morris-Jumel Mansion, Manhattan's oldest surviving residence and famously known as George Washington's headquarters at the start of the American Revolution. By telling the history of its vibrant people and the beautiful architecture of this lovely, well-maintained historic landmark neighborhood, James also dispels the misconception that Harlem was primarily a ghetto wasteland. The book also touches upon the Great Migration of Blacks leaving the South who landed in Harlem, helping it become the mecca for African Americans, including such Harlem Renaissance artists and luminaries as Thurgood Marshall, Count Basie, Duke Ellington, Mary Lou Williams, Paul Robeson, Regina Anderson Andrews, and W. E. B. Du Bois.

ruby bridges painting: The Children Hurricane Katrina Left Behind Sharon P. Robinson, M. Christopher Brown, 2007 Even before the 2005 «Disaster in the Delta» - as the devastation and loss wrought by the category-three hurricane known as Katrina came to be known - statistics emerged about the aggressive educational neglect of Louisiana's African American schoolchildren. The harrowing data about the inadequacies being as racialized as the distribution of aid in the storm's aftermath are chilling indeed. Yet, they have not dissuaded the more than thirty contributors to this volume from viewing Hurricane Katrina as an opportunity and a challenge to transform schools and society for the good of the entire United States. Divided into three sections («Education and School Contexts, » «Preparing Professionals for the Possible, » and «The Social Dynamics of Education Reform»), the seventeen chapters of *The Children Hurricane Katrina Left Behind* discuss what is essential for rebuilding urban schools in New Orleans as well as the nation, engaging the

nuanced nexus of social events and educational policy (e.g., No Child Left Behind) as it relates to the preparation of professional educators and the future of America's schools. As Linda Darling-Hammond notes in her Foreword, each chapter speaks «powerfully and poignantly to [centuries of educational neglect and failed social policies] and to what we can and must do about it.»

ruby bridges painting: The Arts of Leading Edward William Randolph Llywelyn Brooks, Michael Lamb, 2024 This multi-author volume turns to the humanities to explore what we can learn about leadership when we shift our lens away from business, politics, and the social sciences to explore the rich, diverse, and nuanced perspectives of the liberal arts. Drawing insights from leading scholars in classics, philosophy, religion, literature, history, and the visual and performing arts, this book considers how diverse exemplars and a wide range of disciplinary ways of knowing can illuminate complex aspects of leadership that are often obscured in a leadership discourse typically centered on business and politics. It asks fundamental questions about human social life: What does it mean to lead? Whom do we consider to be leaders? And how might diverse perspectives from the humanities expand how leadership is imagined, represented, and enacted? Rather than instrumentalizing the humanities or reducing them to mere management resources, The Arts of Leading engages diverse perspectives from the humanities on their own terms to uncover alternative ways of imagining, embodying, and enacting leadership across different historical, moral, and cultural contexts. The result is a series of insightful and refreshing essays that challenge leaders, scholars, and citizens to consider the nuanced meaning of leadership in our complex world--

Clark, 2020-07-20 Echoes from a Child's Soul: Awakening the Moral Imagination of Children presents remarkable poetry inspired by aesthetic education methodology created by children that were labelled academically, socially, and/or emotionally at-risk. Many children deemed average or below-grade level composed poetry beyond their years revealing moral imagination. Art psychology and aesthetic methodology merge to portray the power of awakening children's voices once silenced. The children's poetry heralds critical and empathic messages for our future. This book proposes an overwhelming need for change in America's public-school education system so that no child is ignored, silenced, deemed less than, or marginalized.
