stonehill college finals schedule: Remembering Lattimer Paul A. Shackel, 2018-09-19 On September 10, 1897, a group of 400 striking coal miners--workers of Polish, Slovak, and Lithuanian descent or origin--marched on Lattimer, Pennsylvania. There, law enforcement officers fired without warning into the protesters, killing nineteen miners and wounding thirty-eight others. The bloody day quickly faded into history. Paul A. Shackel confronts the legacies and lessons of the Lattimer event. Beginning with a dramatic retelling of the incident, Shackel traces how the violence, and the acquittal of the deputies who perpetrated it, spurred membership in the United Mine Workers. By blending archival and archaeological research with interviews, he weighs how the people living in the region remember--and forget--what happened. Now in positions of power, the descendants of the slain miners have themselves become rabidly anti-union and anti-immigrant as Dominicans and other Latinos change the community. Shackel shows how the social, economic, and political circumstances surrounding historic Lattimer connect in profound ways to the riven communities of today. Compelling and timely, *Remembering Lattimer* restores an American tragedy to our public memory.

stonehill college finals schedule: Boxed out of the NBA Syl Sobel, Jay Rosenstein, 2021-04-14 The Eastern Professional Basketball League (1946-78) was fast and physical, often played in tiny, smoke-filled gyms across the northeast and featuring the best players who just couldn't make the NBA—many because of unofficial quotas on Black players, some because of scandals, and others because they weren't quite good enough in the years when the NBA had less than 100 players. In *Boxed out of the NBA: Remembering the Eastern Professional Basketball League*, Syl Sobel and Jay Rosenstein tell the fascinating story of a league that was a pro basketball institution for over 30 years, showcasing top players from around the country. During the early years of professional basketball, the Eastern League was the next-best professional league in the world after the NBA. It was home to big-name players such as Sherman White, Jack Molinas, and Bill Spivey, who were implicated in college gambling scandals in the 1950s and were barred from the NBA, and top Black players such as Hal "King" Lear, Julius McCoy, and Wally Choice, who could not make the NBA into the early 1960s due to unwritten team quotas on African-American players. Featuring interviews with some 40 former Eastern League coaches, referees, fans, and players—including Syracuse University coach Jim Boeheim, former Temple University coach John Chaney, former Detroit Pistons player and coach Ray Scott, former NBA coach and ESPN analyst Hubie Brown, and former NBA player and coach Bob Weiss—this book provides an intimate, first-hand account of small-town professional basketball at its best.

Elizabethada A. Wright, Christina R. Pinkston, 2022-01-28 Building on various feminist theories of ethos, the authors in this collection explore how North American Catholic women from various periods, races, ethnicities, sexualities, and classes have used elements of the group's positionality to make change. The women considered in the book range from the earliest Catholic sisters who arrived in the United States to women who held the Church hierarchy accountable for the sexual abuse scandals. The book analyzes women such as those in an African American order who developed an ethos that would resist racism. Chapters also consider better known Catholic women such as Dolores Huertas, Mary Daly, and Joan Chittister.

At the same time, the University of Notre Dame, a long-time icon of excellence in Catholic education, has sold its soul for government funding and peer-group status among secular institutions of learning. The conferral by Reverend Henry Pankey of an honorary doctorate on El Baba, a zealous abortion advocate, has sundered the school from the Catholic Church and from many in the Notre Dame family.

stonehill college finals schedule: The Rise and Fall (and Rise?) of a Man Brian Sanborn, 2021-02-15 This book is the story of a boy growing up to be a man and the events that led him to make the career choice he did. It is an account of the challenges he faced, his successes, and some of the devastating losses he suffered along the way. The book contains a description of how after a memorable thirty-two-year career, the man threw away his legacy, his reputation, and his community by making a series of bad choices. These pages contain an account of the ramifications of these choices—ramifications that still exist years later. Finally, this script describes this man's struggle against these ramifications and his attempts to rebuild a devastated life. Some major life topics within the context of this story that are discussed give food for thought. Why some relationships, even those that occur at a young age, can lead to life-altering decisions. How the growth that comes through experience and a consistent positive work ethic can convert a subpar worker into a master craftsman. How personal loss not resolved can result in devastating consequences years later. How our world's reliance on credit scores and background checks make it nearly impossible for a person to rise up again after a transgression. The fairness of the tendency of today's world to completely judge a person based on the single worst event in their life. *The Rise and Fall (and Rise?) of a Man* is a worthy read for those who want to be entertained, for those who wish to examine some major topics inherent in each person's life, and for those who wish to examine the direction in which society is currently headed. Is there room in our society for the idea of a second chance?
