spiritual society miami reviews: **The Politics of the Spirit** Timothy J. Steigenga, 2002-05-24
The Politics of the Spirit is a masterful study of the political effects of evangelical Protestantism in Central America. Timothy Steigenga's thoughtfully crafted work questions whether the spread of Protestantism in Latin America has reinforced authoritarian elements in political culture or deepened nascent democracy. Steigenga provides a thorough review of the literature on religion and politics in Latin America, putting many of the hypotheses generated in this literature to the test through an analysis of comparative survey data and qualitative interviews. Steigenga investigates the impact religious affiliation has on political activity and belief, and the influence of cross-denominational religious beliefs and practices on Latin American life. His comparative work explores how different political systems--the established democracy of Costa Rica and the transitional system of Guatemala--impact the politics of religion. This enlightening interdisciplinary book will appeal to scholars seeking to understand the relationships between religious and political change in Latin America.

spiritual society miami reviews: *Faith, Family, and Filipino American Community Life*
Stephen M. Cherry, 2014-01-03 Stephen M. Cherry draws upon a rich set of ethnographic and survey data, collected over a six-year period, to explore the roles that Catholicism and family play in shaping Filipino American community life. From the planning and construction of community centers, to volunteering at health fairs or protesting against abortion, this book illustrates the powerful ways these forces structure and animate not only how first-generation Filipino Americans think and feel about their community, but how they are compelled to engage it over issues deemed important to the sanctity of the family. Revealing more than intimate accounts of Filipino American lives, Cherry offers a glimpse of the often hidden but vital relationship between religion and community in the lives of new immigrants, and allows speculation on the broader impact of Filipino immigration on the nation. The Filipino American community is the second-largest immigrant community in the United States, and the Philippines is the second-largest source of Catholic immigration to this country. This ground-breaking study outlines how first-generation Filipino Americans have the potential to reshape American Catholicism and are already having an impact on American civic life through the engagement of their faith.
