star trek resurgence story choices: Seeking the Self - Encountering the Other Tuomas Huttunen, Janne Korkka, 2020-11-09 Seeking the Self - Encountering the Other offers new insights into diasporic experiences, encounters and representations. This collection of texts examines diaspora narratives and the ways in which different encounters with the other are represented, as well as how these encounters might be read and interpreted in ethical terms. The anthology explores questions of ethics in narratives of displacement or belonging, nationalist narratives of exclusion and borderline narratives, constructed on the foundation provided by encounters with the cultural, sexual, gendered and ethnic other. The contributors' aim is to explore questions of responsibility and ethics in the study of diaspora, migration, and alterity from a wide range of perspectives. Following a Levinasian one, if the other is always ultimately transcendental and ungraspable through language, we are required to consider ethics every time we write, read or interpret an encounter with the other.
