the glass castle themes: Don't Foolish Yourself: Impermanence as the Key to Wisdom

Robert Colacurcio, 2024-04-28 The subtitle of this book is "Impermanence as the Key to Wisdom." Actually the word "wisdom" occurs only infrequently as in the expression "the arc of evolution leads to the goal of wisdom-compassion non dual" for every sentient being. In days gone by, Catholic universities especially used to feature wisdom as one of the primary goals of their curriculum. Wisdom as a feature of higher education seems to have fallen out of favor. I'm not clear on why that is, except that once upon a time, philosophy & theology used to be enthroned as the Queen of the Sciences. Not beheaded quite, but certainly dethroned, she now serves more like the scullery maid in the Castle of Technology. Whatever the case may be, I'm not talking about "wisdom" as the West has typically understood it. My explication of impermanence is about one of the many folds the universe takes to crease the fabric of its infinitely varied manifestations. I have adopted the spiritual technology of the Buddha to do this. Therefore, my approach is the rather eastern, specifically Tibetan, viewpoint of what "wisdom" means. Nevertheless, I try my best to explain the methodology from the Buddha's toolkit in terms a contemporary western reader will not find foreign.

the glass castle themes: *Myths and Legends of the Medieval World* Paul Watts, 2025-02-05 No one can deny the enduring power of medieval myths and legends. Tales of King Arthur, Merlin, Robin Hood, Sir Lancelot, magic, dragons, giants, demons, and the Holy Grail are as fascinating for us today as they have ever been. However, the stories we have inherited from our medieval forebears have often been transformed by the embellishments and additions of later generations. In every century since the Middle Ages, stories have been re-imagined, re-told, and sometimes radically changed to suit the audience of the day. This book aims to transport the reader back to the age of the Plantagenets and re-tell these stories as they would have been understood at the time. It explores the stories in detail and looks at what they meant to people living then, how they were told and why they were important. *Myths and Legends of the Medieval World* provides a detailed account of medieval mythology in its original context. It offers a window into a medieval mind-set in which such things as angels, demons, visions, magic, holy relics, and other supernatural entities were an accepted reality. Explore some of the most puzzling and captivating mysteries of the Middle Ages. What lay behind the legend of the Holy Grail? How did people regard the perilous world of the medieval fairy? How did the medieval world view witchcraft? And what happened during the infamous trial of the Templars? These are all questions that *Myths and Legends of the Medieval World* sets out to answer.

the glass castle themes: *Girls of Tender Age* Mary-Ann Tirone Smith, 2006-02-24 In *Girls of Tender Age*, Mary-Ann Tirone Smith fully articulates with great humor and tenderness the wild jubilation of an extended French-Italian family struggling to survive in a post-World War II housing project in Hartford, Connecticut. Smith seamlessly combines a memoir whose intimacy matches that of Angela’s Ashes with the tale of a community plagued by a malevolent predator that holds the emotional and cultural resonance of *The Lovely Bones*. Smith’s Hartford neighborhood is small-town America, where everyone’s door is unlocked and the school, church, library, drugstore, 5 & 10, grocery, and tavern are all within walking distance. Her family is peopled with memorable characters—her possibly psychic mother who’s always on the verge of a nervous breakdown, her adoring father who makes sure she has something to eat in the morning beyond her usual gulp of Hershey’s syrup, her grandfather who teaches her to bash in the heads of the eels they catch on Long Island Sound, Uncle Guido who makes the annual bagna cauda, and the numerous aunts and cousins who parade through her life with love and food and endless stories of the old days. And then there’s her brother, Tyler. Smith’s household was “different.” Little Mary-Ann couldn’t have friends over because her older brother, Tyler, an autistic before anyone knew what that meant, was unable to bear noise of any kind. To him, the sound of crying, laughing, phones ringing, or toilets flushing was “a cloud of barbed needles” flying into his face. Subject to such an assault, he would substitute that pain with another: he’d try to chew his arm off. Tyler was Mary-Ann’s real-life Boo Radley, albeit one whose bookshelves sagged under the weight of the World War II books he collected and read obsessively. Hanging over this rough-and-tumble American childhood is the sinister shadow of an approaching serial killer. The menacing Bob Malm lurks throughout this joyous and chaotic family portrait, and the havoc he unleashes when the paths of innocence and evil cross one early December evening in 1953 forever alters the landscape of Smith’s childhood. *Girls of Tender Age* is one of those books that will forever change its readers because of its beauty and power and remarkable wit.

the glass castle themes: The French New Wave Peter Graham, Ginette Vincendeau, 2022-09-08 The French New Wave is an essential anthology of writings by and about the critics and filmmakers of this revolutionary cinematic movement, which has had a radical impact on film practice and the way we think and write about film. The volume includes foundational writings such as Francois Truffaut's A Certain Tendency in French Cinema and Andre Bazin's La Politique des auteurs, as well writings by Jean-Luc Godard, Claude Chabrol and Alexandre Astruc. This new edition now represents writings by and about women critics and film-makers, including important articles by the critics Evelyne Sullerot, Michele Firk and Françoise Aude, addressing issues of gender and representation, as well as considering New Wave films in the context of contemporary political events, notably France's colonialist war on the Algerian independence movement. To accompany the case study of Godard's À bout de souffle, the new edition includes a case study of the critical reception of two films by Agnès Varda: La Pointe Courte and Cléo de 5 à 7 . the glass castle themes: Mythmaking Maureen Murdock, 2024-03-05 Best-selling Heroine's Journey author Maureen Murdock invites readers to explore their personal story within the rich tapestry of human experience by examining the craft of memoir alongside fresh writing advice and prompts. Maureen Murdock looks at thematic connections between ancient myths and contemporary memoirs to probe questions like: What is my journey? Where is home? Her background as a Jungian psychotherapist enriches her teaching—urging us to dig deep to identify our own universal archetypes. Writers who feel stuck or unworthy of writing about themselves will find thought-provoking inspiration and validation in this book, while those simply looking to use writing as a tool for self-exploration will examine their patterns and stories to reveal their true inner selves. And all will be left with a deeper understanding of the rich scope of the memoir genre by exploring contemporary favorites—like Terry Tempest Williams's Refuge, Joan Didion's The Year of Magical Thinking, and David Carr's The Night of the Gun—from a mythological perspective. Like myth, memoir reveals a unity to human experience that ultimately we all share similar hopes, dreams, and desires as well as fears, losses, and heartbreaks. Memoir helps writers understand the trajectory of their lives and helps readers better grasp our own place within the human experience.
