

the writing revolution curriculum

the writing revolution curriculum is a highly effective instructional approach designed to improve students' writing skills through explicit teaching of writing strategies and techniques. This curriculum emphasizes the importance of clear, structured writing as a foundation for learning across all subjects. It addresses common challenges in writing by focusing on sentence-level skills, including grammar, sentence structure, and organization, before advancing to paragraph and essay writing. The writing revolution curriculum has been widely adopted in various educational settings due to its proven ability to enhance student writing proficiency and critical thinking. This article explores the core components, benefits, implementation strategies, and outcomes associated with this curriculum. Readers will gain a comprehensive understanding of how the writing revolution curriculum transforms writing instruction and student achievement.

- Overview of the Writing Revolution Curriculum
- Core Components and Instructional Strategies
- Benefits of Implementing the Writing Revolution Curriculum
- Effective Implementation in Schools
- Measuring Student Outcomes and Success

Overview of the Writing Revolution Curriculum

The writing revolution curriculum is an educational framework developed to enhance writing skills systematically through explicit instruction. Originating from research on writing development and cognitive science, this curriculum targets all grade levels, aiming to build strong writing foundations early on. Unlike traditional writing instruction, which may focus primarily on creative expression or essay writing, the writing revolution curriculum emphasizes mastery of sentence-level skills as the building blocks for more complex writing tasks. This methodical approach ensures students develop proficiency in writing that supports their academic success across disciplines.

Historical Context and Development

The writing revolution curriculum was developed to address widespread challenges in student writing proficiency identified by educators and researchers alike. It emerged from the need for a structured, evidence-based

writing program that could be integrated across subjects. The curriculum draws on methodologies such as sentence expansion, sentence combining, and explicit grammar instruction, all aimed at fostering clearer and more coherent writing. Over time, the writing revolution curriculum has been refined through classroom application and research to maximize its effectiveness.

Key Objectives

The primary objectives of the writing revolution curriculum include improving students' ability to construct well-formed sentences, enhancing their capacity to organize ideas coherently, and developing critical thinking skills through writing. The curriculum also seeks to increase students' confidence in writing, enabling them to express complex ideas precisely and logically. By focusing on the fundamentals of writing, the program prepares students for success in standardized tests, academic writing, and real-world communication.

Core Components and Instructional Strategies

The writing revolution curriculum comprises several core components designed to build writing skills progressively. It begins with sentence-level instruction and gradually advances to paragraph and essay writing. This scaffolded approach ensures students develop a comprehensive understanding of writing mechanics and composition.

Sentence-Level Instruction

At the heart of the writing revolution curriculum is explicit teaching of sentence construction. Students learn how to write complete sentences with proper subject-verb agreement, punctuation, and varied sentence structures. Techniques such as sentence expansion and sentence combining are central to this stage, helping students enhance sentence complexity and fluency.

Paragraph and Essay Development

Once sentence skills are established, the curriculum advances to paragraph writing, emphasizing topic sentences, supporting details, and concluding sentences. Students are taught to organize their thoughts logically and cohesively. Eventually, they progress to essay writing, where they learn to structure introductions, develop arguments, and provide evidence effectively.

Writing Across the Curriculum

The writing revolution curriculum promotes writing integration across all subject areas, including science, social studies, and mathematics. This cross-curricular approach reinforces writing skills while enabling students to engage deeply with content knowledge. Writing assignments are tailored to subject-specific content, helping students articulate understanding and analyze information critically.

Instructional Techniques

- **Sentence Expansion:** Adding details to basic sentences to increase complexity.
- **Sentence Combining:** Merging shorter sentences into more sophisticated structures.
- **Explicit Grammar Instruction:** Teaching rules of grammar and punctuation in context.
- **Graphic Organizers:** Visual aids to plan writing and organize ideas.
- **Frequent Writing Practice:** Regular exercises to reinforce skills and build fluency.

Benefits of Implementing the Writing Revolution Curriculum

The writing revolution curriculum offers numerous benefits for students, educators, and educational institutions. Its structured and research-based methodology leads to measurable improvements in writing proficiency and academic achievement.

Improved Writing Skills

Students demonstrate significant gains in sentence structure, coherence, and overall writing quality. The curriculum's focus on foundational skills reduces common errors and enhances clarity and precision in student writing.

Enhanced Critical Thinking

Through the process of organizing and expressing ideas in writing, students develop stronger analytical and reasoning abilities. The curriculum

encourages students to think critically about content and how to communicate it effectively.

Cross-Disciplinary Academic Gains

Because the writing revolution curriculum is integrated across subjects, students improve not only in language arts but also in content areas such as science and social studies. This holistic approach supports better comprehension and retention of subject matter.

Teacher Empowerment and Professional Development

Educators benefit from clear instructional frameworks and resources that facilitate effective writing instruction. The curriculum often includes professional development opportunities that help teachers implement the methods confidently and successfully.

Effective Implementation in Schools

Successful adoption of the writing revolution curriculum requires careful planning, training, and ongoing support. Schools that implement the curriculum effectively see greater student engagement and achievement in writing.

Teacher Training and Support

Professional development workshops and coaching are essential for equipping teachers with the skills and knowledge necessary to deliver the curriculum effectively. Ongoing support ensures fidelity to the instructional model and allows for adaptation to specific classroom needs.

Curriculum Integration and Scheduling

Integrating the writing revolution curriculum into existing schedules involves aligning it with state standards and curricular goals. Schools often embed writing instruction within content-area classes to maximize instructional time and relevance.

Monitoring Progress and Adjusting Instruction

Regular assessment and data analysis help educators monitor student progress and identify areas needing reinforcement. Instruction can then be tailored to address specific challenges and support individual student growth.

Measuring Student Outcomes and Success

Assessment plays a critical role in evaluating the effectiveness of the writing revolution curriculum. Schools use a variety of tools and metrics to measure student performance and program impact.

Formative and Summative Assessments

Formative assessments provide ongoing feedback during instruction, allowing for timely adjustments. Summative assessments evaluate overall writing proficiency and mastery of skills at key points throughout the academic year.

Standardized Test Performance

Improved writing skills gained through the writing revolution curriculum often translate to higher scores on standardized tests that include writing components. This improvement reflects the curriculum's alignment with academic standards and testing requirements.

Long-Term Academic Benefits

Students who participate in the writing revolution curriculum demonstrate stronger reading comprehension, academic writing, and college and career readiness. These long-term outcomes underscore the curriculum's value as a foundational educational tool.

Frequently Asked Questions

What is the Writing Revolution curriculum?

The Writing Revolution curriculum is an instructional approach designed to improve students' writing and critical thinking skills through explicit teaching of sentence-level writing techniques and structured writing strategies.

Who developed the Writing Revolution curriculum?

The Writing Revolution curriculum was developed by Judith C. Hochman and Natalie Wexler to help educators teach writing effectively across all grade levels and subjects.

What are the core principles of the Writing

Revolution curriculum?

The core principles include explicit instruction in sentence structure, use of sentence expansion, combining sentences, and gradually building towards coherent paragraphs and essays.

How does the Writing Revolution curriculum improve student writing?

It improves writing by teaching students foundational skills such as sentence construction, clarity, and organization, which serve as building blocks for more complex writing tasks.

Which grade levels is the Writing Revolution curriculum suitable for?

The Writing Revolution curriculum is adaptable for students from elementary through high school, with lessons tailored to different developmental stages.

Can the Writing Revolution curriculum be integrated into other subjects?

Yes, the Writing Revolution curriculum is designed to be interdisciplinary and can be integrated into subjects like history, science, and social studies to enhance writing and comprehension.

What types of writing skills does the Writing Revolution emphasize?

It emphasizes skills such as sentence combining, sentence expansion, paragraph writing, and developing clear and logical explanations.

Are there resources available for teachers implementing the Writing Revolution curriculum?

Yes, there are teacher guides, lesson plans, professional development workshops, and online resources available to support educators in implementing the curriculum effectively.

What evidence supports the effectiveness of the Writing Revolution curriculum?

Research and case studies have shown that students who participate in Writing Revolution instruction demonstrate significant improvements in writing clarity, organization, and overall academic performance.

Additional Resources

1. *The Writing Revolution: A Guide to Advancing Thinking Through Writing in All Subjects and Grades*

This foundational book by Judith C. Hochman and Natalie Wexler introduces the Writing Revolution (TWR) methodology, emphasizing explicit instruction in sentence-level skills to improve students' writing and critical thinking. It offers practical strategies and examples for teachers across grade levels and subjects. The book also includes reproducible materials to implement TWR in classrooms effectively.

2. *Writing to Read: Evidence for How Writing Can Improve Reading*

This book compiles research demonstrating the strong connection between writing instruction and reading comprehension. It supports the Writing Revolution's premise that writing is not just a communication tool but also a vital learning mechanism. Educators will find evidence-based arguments for integrating writing into literacy curricula.

3. *Teaching Argument Writing, Grades 6-12: Supporting Claims with Relevant Evidence and Clear Reasoning*

By George Hillocks Jr., this book aligns with TWR principles by focusing on teaching students how to construct coherent arguments. It provides lesson plans and strategies that help students develop claims supported by evidence, an essential skill emphasized in the Writing Revolution approach.

4. *Sentence-Composing for Middle School: A Worktext on Sentence Variety and Maturity*

Don and Jenny Killgallon's worktext complements the Writing Revolution by offering practical exercises to enhance sentence construction skills. This book helps students move beyond simple sentences to more complex and varied structures, directly supporting TWR's focus on sentence-level proficiency.

5. *From Paragraph to Essay: A Portable Writing Center for Home or School*

This resource offers scaffolded instruction for students to develop paragraphs and essays through clear, step-by-step guidance. It aligns with the Writing Revolution's scaffolded approach to writing instruction, helping students build from sentences to cohesive larger texts.

6. *Explicit Instruction: Effective and Efficient Teaching*

Barak Rosenshine's book provides a research-based framework for explicit teaching methods, which underpin the Writing Revolution curriculum. It emphasizes clear, direct instruction and guided practice, essential components of the TWR approach to teaching writing skills.

7. *Writing Strategies for All Primary Learners*

This book focuses on strategies to support young and struggling writers, resonating with the Writing Revolution's goal to make writing accessible to all learners. It includes differentiated instruction techniques and practical activities that promote foundational writing skills.

8. *Content Area Writing: Every Teacher's Guide*

Aimed at educators across disciplines, this guide encourages integrating writing instruction into all subject areas, a key principle of the Writing Revolution. It offers strategies to teach writing within content classes, helping students improve comprehension and expression simultaneously.

9. *The Power of Sentence Combining: A New Approach to Teaching Basic Writing Skills*

Kathleen T. Gould's book introduces sentence combining as a technique to develop syntactic maturity, a concept central to the Writing Revolution curriculum. Through engaging exercises, students learn to create more complex and fluid sentences, enhancing both their writing and thinking skills.

the writing revolution curriculum: The Writing Revolution Judith C. Hochman, Natalie Wexler, 2017-08-07 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

the writing revolution curriculum: The Writing Revolution 2.0 Judith C. Hochman, Natalie Wexler, 2025-04-01 Lead a writing revolution in your classroom with the proven Hochman Method Building on the success of the original best-seller, this new edition of The Writing Revolution adds valuable guidance for teachers seeking a way to bring their students' writing ability up to rigorous state standards. As thousands of educators have already discovered, The Writing Revolution provides the road map they need, clearly explaining how to incorporate the Hochman Method into their instruction, no matter what subject or grade they're teaching and regardless of the ability level of their students. The new edition provides a reorganized sequence of activities and even more student-facing examples, making it easier than ever to bring the method to your classroom. The Writing Revolution isn't a separate curriculum or program teachers need to juggle. Rather, it is a method providing strategies and activities that teachers can adapt to their preexisting curriculum and weave into their content instruction. By focusing on specific techniques that match their

students' needs and providing them with targeted feedback, The Writing Revolution can turn weak writers into strong and confident communicators. In addition, the method can: Identify misconceptions and gaps in knowledge Boost reading comprehension and learning Improve organizational skills Enrich oral language Develop analytical abilities The Writing Revolution takes the mystery out of teaching students to write well.

the writing revolution curriculum: Landmark Essays on Writing Across the Curriculum

Charles Bazerman, David Russell, 2020-11-25 Rhetoric, as a general teaching -- while preaching locality of action and guidelines for handling that locality -- has tended from the beginning to serve as a universality. It has offered a generalized techne with only limited categories, appropriate for all discursive situations, at least for those that were not excluded from the realm of rhetoric. Nonetheless, from its beginnings, rhetoric limited its interests to certain activity fields such as law, government, religion, and most important, the educators of leaders in these activity fields. This collection presents landmarks showing where the Writing-Across-the-Curriculum (WAC) and Writing in the Disciplines (WID) movements have gone. They have opened up a number of prospects that were impossible to see when rhetoric and composition confined their gaze to relatively few discursive activities. This suggests that the rhetorical landscape is becoming more complex and interesting, as well as more responsive to life in the complex, differentiated societies that have emerged in the last few centuries. This volume will reveal to scholars and researchers a range of possibilities for the study of disciplinary discourse and its teaching, and suggest to them new prospects for the future -- and for the better.

the writing revolution curriculum: Teaching and Assessing Writing in the Primary School

Eithne Kennedy, Gerry Shiel, 2025-02-10 The capacity to write well is fundamental to success in school and beyond. Yet many children struggle to become proficient writers. Teaching and Assessing Writing in the Primary School provides a comprehensive guide to the theory, practice and pedagogical research behind teaching children to write. Supported by case studies and real-world examples of teaching and learning writing in the classroom, this practical book proposes a whole-school, research-informed writing framework that engages children while building their writing skills. Readers will benefit from building their knowledge of the theory and research behind learning how to write successfully while discovering how they may apply this effectively to their classroom practice. Firmly grounded in the theory of writing and with clear links to practical application, chapters explore: Effective pedagogies for teaching children aged 4-12 how to write The planned and received curriculum for writing, including a whole-school approach Formative and summative assessment of writing in the classroom Designing and organising a Writing Workshop for pupils Practical implementation of 'mini lessons' to support writing Supporting the needs of diverse writers within our schools Filled with strategies for teaching, this practical and engaging book will be an essential resource for anyone working within primary schools, including classroom teachers (both new and more experienced), teaching assistants, subject leaders, literacy coordinators and senior leadership.

the writing revolution curriculum: Follow the Science to School: Evidence-based Practices for Elementary Education Barbara Davidson, Kathleen Carroll, Michael J. Petrilli, 2022-03-21 "Follow the science." How often have you picked up an education book to read how, according to the authors, the system is broken, failing, and flailing—but their ideas for fixing it will bring about a miraculous transformation? That's not the approach of this volume. Sure, the editors believe that our system of education could achieve significantly better results. But they also recognize that schools have gotten better over time. One explanation is the progress schools have made in "following the science". Especially in early reading and math instruction, scholars know more now about what works than we did in the past, and more schools are putting that knowledge into practice. Now, in the wake of a horrific pandemic, even the best elementary schools are struggling to help their students get their momentum back again. In this book, the editors share high-quality syntheses of evidence and insights from leading educators, academics, and other experts. And they communicate those findings in user-friendly language, with an understanding of

the real-world complexities of schools and classrooms.

the writing revolution curriculum: *Writing Against the Curriculum* Randi Gray Kristensen, Ryan M. Claycomb, 2010-01-01 Writing against the Curriculum responds to the popularity of Writing Across the Curriculum (WAC) and similar programs in U.S. higher education. Essays by administrators, faculty, and librarians-teaching introductory and advanced writing classes-argue that such classrooms make excellent spaces to question disciplinarity through the study of rhetoric, critical thinking, and curricular flexibility. This intervention in composition and cultural studies discourses enables the activist enactment of cultural studies' theory and addresses the theoretical implications of composition practices.

the writing revolution curriculum: Curriculum Review , 1986

the writing revolution curriculum: EFL Writing Teacher Education and Professional Development Estela Ene, Betsy Gilliland, Sarah Henderson Lee, Tanita Saenkhum, Lisy Seloni, 2024-04-16 This book explores how EFL writing teacher education is theoretically, pedagogically, methodologically and sociopolitically shaped, given teachers' unique local contexts and circumstances. It showcases practitioners and researchers teaching in, or studying, geographic areas that have as yet been under-represented in international publications, and it focuses on ways that specific contexts create unique opportunities and constraints on what developing teachers know and do in their work. The chapters prioritize local voices and materials to build a more inclusive and comprehensive picture of L2 writing globally, enabling the book as a whole to both document and further shape pedagogical approaches to L2 writing. Readers will be able to use the unique insights contained in this book in their own classrooms and professional development activities.

the writing revolution curriculum: Beyond the Science of Reading Natalie Wexler, 2025 Wexler debunks common myths about how children learn to read, explores the connection between reading and writing skills, and offers practical solutions for bringing science-informed teaching to scale--

the writing revolution curriculum: The Curriculum of the Catholic Elementary School George Johnson, 1919

the writing revolution curriculum: Thinking About The Curriculum (Routledge Revivals) William A Reid, 2013-10-14 First published in 1978, this book looks at the 'curriculum crisis' of the 1970s, examining the effect it has had for Curriculum Studies and curriculum policy making. It focuses on a time when long-established structures and procedures were challenged and schools were accused of having lost touch with the wants and needs of communities. The author argues that the curriculum should become part of community interest and be led by this, rather than by professionals and initiates. Indeed, he feels that the curriculum must have an identity which avoids alliances with technocrats, bureaucrats or ideologues, but yet has a positive philosophy and a commitment to good values.

the writing revolution curriculum: A Socially Just Classroom: Transdisciplinary Approaches to Teaching Writing Across the Humanities Kristin Coffey, Vuslat Katsanis, 2022-08-16 This edited collection provides a range of transdisciplinary approaches to the teaching of writing across the Humanities through the lens of inclusion and equity in higher education. In three parts - From Disciplinary Practice to Transdisciplinary Application, The Collective We: Transparent Pedagogy in Praxis, Power in Presence: From Chalkboard to Pavement - the chapters focus on teaching triumphs and challenges, specific learning objectives and best practices, theories and their applications, and concrete examples of campus action within specific institutional or socio-historical contexts. In whole, the book represents what a socially just classroom looks like from first-year university writing classes, to advanced graduate studies, and the impact of learning beyond the university. Building on the scholarship of equity in higher education, the book forefronts transdisciplinary pedagogies with chapters representing language and literature, creative writing, cultural and ethnic studies, women and gender studies, and media studies. While we understand social justice as a multifaceted and ever expanding effort, we affirm the essential role of classroom instructors as the foundational actors in cultivating and sustaining inclusion and equity. We also acknowledge the current

challenges of teaching brought on by the COVID-19 pandemic, which intensifies previously existing issues surrounding housing, employment, healthcare, and the legal residency status of many students. By fostering a conversation around writing pedagogy in a comparative and transdisciplinary context, we encourage educators to translate the resources available in their fields in a collective effort to close the equity gaps. At the same time, we intend for this book to provide a context where younger faculty and diverse students can redefine the college classroom while empowering each other within their chosen institutions.

the writing revolution curriculum: The researchED Guide to Primary Literacy: An evidence-informed guide for teachers Stephen Lockyer, 2024-10-25 researchED is an educator-led organisation with the goal of bridging the gap between research and practice. This accessible and punchy series, overseen by founder Tom Bennett, tackles the most important topics in education, with a range of experienced contributors exploring the latest evidence and research and how it can apply in a variety of classroom settings. Literacy is one of the most powerful and transformative learning tools: making changes and improvements in Literacy will have a direct impact on your work, your learning and your aspirations across all subjects in the curriculum. In this book, Stephen Lockyer brings together contributions from expert writers, including Clare Sealy, Emma Stokes, Neil Almond and Andrew Percival, to show how making tiny, incremental changes with consistency and genuine purpose can have a big effect on your students, their literacy, and their learning. Each chapter has an abundance of ideas to take into your classroom and have a direct impact on the pupils.

the writing revolution curriculum: What is History Teaching, Now? A practical handbook for all history teachers and educators Alex Fairlamb, Rachel Ball, 2023-06-16 What is History Teaching, Now? is a research-informed handbook designed to provide practical guidance for history teachers and educators with differing levels of experience. Drawing upon the classroom practice and experience of a range of practitioners, the book focuses upon key areas such as curriculum and assessment, pedagogy, communicating history and resources that support effective teaching and learning. This book also provides practical ways to approach teaching topics such as diverse histories, the British Empire, world history and environmental history. Practical strategies are woven within the book, alongside questions for reflection and suggestions for further research and reading.

the writing revolution curriculum: Active Literacy Across the Curriculum Heidi Hayes-Jacobs, 2014-07-10 Highly acclaimed author Heidi Hayes Jacobs shows teachers – at very grade level and in every subject area -- how to integrate the teaching of literacy skills into their daily curriculum. With an emphasis on school wide collaborative planning, she shows how curriculum mapping sustains literacy between grade levels and subjects.

the writing revolution curriculum: Focus, 2nd Edition Mike Schmoker, 2018-07-16 In this 2nd edition of Focus: Elevating the Essentials to Radically Improve Student Learning, Mike Schmoker extends and updates the case that our schools could be on the cusp of swift, unparalleled improvements. But we are stymied by a systemwide failure to simplify and prioritize; we have yet to focus our limited time and energy on the most essential, widely acknowledged, evidence-based practices that could have more impact than all other initiatives combined. They are: simple, coherent curricula; straightforward, traditional literacy practices; and lessons built around just a few hugely effective elements of good teaching. As Schmoker demonstrates, the case for these practices--and the need for them--has grown prodigiously. In every chapter, you'll find late-breaking discoveries and practical advice on how to simplify the implementation of new state standards in the subject areas; on the hidden pitfalls of our most popular, but unproven instructional fads and programs; and on simple, versatile strategies for building curriculum, planning lessons, and integrating literacy into every discipline. All of these strategies and findings are supported with exciting new evidence from actual schools. Their success confirms, as Michael Fullan writes, that a focus on the best high-leverage practices won't only improve student performance; they will produce stunningly powerful consequences in our schools.

the writing revolution curriculum: Introducing Writing Across the Curriculum into

China Dan Wu, 2012-09-19 Dr. Wu Dan's *Introducing Writing Across the Curriculum into China* is an important and provocative research study that is broadly international in scope. Of particular significance for education in China, this book provides a historical analysis of writing instruction in China and an original application of activity theory used to analyze problems and possibilities for Writing Across the Curriculum (WAC) in higher education. Through an examination of important aspects of WAC as it has developed in the United States, Dr. Wu Dan brings together various perspectives in support of developing and sustaining WAC programs in China and by analogy throughout the world. Her work opens new avenues for research in writing and for the teaching of courses throughout the curriculum using a writing-in-the-disciplines approach. A major contribution to international WAC scholarship, *Introducing Writing Across the Curriculum into China* will be invaluable to English faculty and to all readers interested in educational innovations in China.

the writing revolution curriculum: Sense and Sensitivity Hanna Ezer, 2015-12-17 The study described in this book is a qualitative phenomenological research study whose objective was to reveal the writer's identity of teacher educators in academia and to discover how they express this identity in their teaching practice. Twenty-three academic scholars were interviewed for the study. The research findings indicate that the identity of the writer is complex, incorporating three interwoven aspects: a cognitive aspect, an emotional aspect and a sociocultural aspect. The cognitive aspect finds expression in the writer's awareness and understanding of the medium of writing, which explicitly and openly entails the production of ideas while writing. This process is fundamentally rhizomatic in that it moves in different directions, each time beginning anew from a different point, and is ultimately geared toward a multidirectional and multilayered product. The emotional aspect in the writer's life is somewhat mystical in nature. It is a medium that surrounds writers at all times and enables them to find their voice and their place in the world. The writing workspace is perceived as part of this aspect. It is a sanctuary that provides inspiration, is designed according to the writer's needs and shapes the writing. The sociocultural aspect shapes the identity of the writer and highlights social mirroring as part of the writer's positioning in life and in the professional community. Intended audience: This book is aimed at the community of researchers in the writing domain. It is also of interest to academic scholars in higher education who perceive writing as part of their personal and academic identity. Qualitative researchers will find interest in the research method and the relations between qualitative genres, among them phenomenological and narrative genres.

the writing revolution curriculum: Writing Program Administration Susan H. McLeod, 2007-03-16 This reference guide provides a comprehensive review of the literature on all the issues, responsibilities, and opportunities that writing program administrators need to understand, manage, and enact, including budgets, personnel, curriculum, assessment, teacher training and supervision, and more. *Writing Program Administration* also provides the first comprehensive history of writing program administration in U.S. higher education. *Writing Program Administration* includes a helpful glossary of terms and an annotated bibliography for further reading.

the writing revolution curriculum: Assessing Writing to Support Learning Sandra Murphy, Peggy O'Neill, 2022-11-08 In this book, authors Murphy and O'Neill propose a new way forward, moving away from high-stakes, test-based writing assessment and the curriculum it generates and toward an approach to assessment that centers on student learning and success. Reviewing the landscape of writing assessment and existing research-based theories on writing, the authors demonstrate how a test-based approach to accountability and current practices have undermined effective teaching and learning of writing. This book bridges the gap between real-world writing that takes place in schools, college, and careers and the writing that students are asked to do in standardized writing assessments to offer a new ecological approach to writing assessment. Murphy and O'Neill's new way forward turns accountability inside out to help teachers understand the role of formative assessments and assessment as inquiry. It also brings the outside in, by bridging the gap between authentic writing and writing assessment. Through these two strands, readers learn how assessment systems can be restructured to become better aligned with contemporary

understandings of writing and with best practices in teaching. With examples of assessments from elementary school through college, chapters include guidance on designing assessments to address multiple kinds of writing, integrate reading with writing, and incorporate digital technology and multimodality. Emphasizing the central role that teachers play in systemic reform, the authors offer sample assessments developed with intensive teacher involvement that support learning and provide information for the evaluation of programs and schools. This book is an essential resource for graduate students, instructors, scholars and policymakers in writing assessment, composition, and English education.
