tim maher hunting trips: Our Osage Hills Michael Snyder, John Joseph Mathews, 2020-07-24 This revealing book presents a selection of lost articles from "Our Osage Hills," a newspaper column by the renowned Osage writer, naturalist, and historian, John Joseph Mathews. Signed only with the initials "J.J.M.," Mathews's column featured regularly in the Pawhuska Daily Journal-Capital during the early 1930s. While Mathews is best known for his novel Sundown (1934), the pieces gathered in this volume reveal him to be a compelling essayist. Marked by wit and erudition, Mathews's column not only evokes the unique beauty of the Osage prairie, but also takes on urgent political issues, such as ecological conservation and Osage sovereignty. In *Our Osage Hills*, Michael Snyder interweaves Mathews's writings with original essays that illuminate their relevant historical and cultural contexts. The result is an Osage-centric chronicle of the Great Depression, a time of environmental and economic crisis for the Osage Nation and country as a whole. Drawing on new historical and biographical research, Snyder's commentaries highlight the larger stakes of Mathews's reflections on nature and culture and situate them within a fascinating story about Osage, Native American, and American life in the early twentieth century. In treating topics that range from sports, art, film, and literature to the realities and legacies of violence against the Osages, Snyder conveys the broad spectrum of Osage familial, social, and cultural history.

tim maher hunting trips: What's Fair on the Air? Heather Hendershot, 2011-07-15 The rise of right-wing broadcasting during the Cold War has been mostly forgotten today. But in the 1950s and '60s you could turn on your radio any time of the day and listen to diatribes against communism,

civil rights, the United Nations, fluoridation, federal income tax, Social Security, or JFK, as well as hosannas praising Barry Goldwater and Jesus Christ. Half a century before the rise of Rush Limbaugh and Glenn Beck, these broadcasters bucked the FCC's public interest mandate and created an alternate universe of right-wing political coverage, anticommunist sermons, and pro-business bluster. A lively look back at this formative era, *What's Fair on the Air?* charts the rise and fall of four of the most prominent right-wing broadcasters: H. L. Hunt, Dan Smoot, Carl McIntire, and Billy James Hargis. By the 1970s, all four had been hamstrung by the Internal Revenue Service, the FCC's Fairness Doctrine, and the rise of a more effective conservative movement. But before losing their battle for the airwaves, Heather Hendershot reveals, they purveyed ideological notions that would eventually triumph, creating a potent brew of religion, politics, and dedication to free-market economics that paved the way for the rise of Ronald Reagan, the Moral Majority, Fox News, and the Tea Party.
