Foundations of America's Secret Destiny

The secret destiny of America is deeply rooted in its foundational history. The early settlers and founding fathers envisioned a nation that would embody liberty, democracy, and opportunity. These ideals were not merely political but carried a broader mission that many interpret as America's unique role in human progress. The Declaration of Independence and the Constitution laid the groundwork for a society that would strive toward justice and equality, setting a precedent for future generations.

The Colonial Vision and Early Aspirations

From the earliest days of colonization, European settlers believed that America offered a fresh start and a new world of possibilities. The Puritans, Pilgrims, and other groups sought religious freedom and self-governance, which contributed to a collective sense of purpose. These aspirations formed an undercurrent in the secret destiny of America, emphasizing renewal and transformation.

The Founding Documents and Their Lasting Impact

The U.S. Constitution, Bill of Rights, and other founding documents

established principles that continue to influence America's trajectory. These texts reflect a commitment to individual rights, the rule of law, and a government accountable to the people. They serve as a blueprint for the secret destiny of America, guiding the nation's evolution and its quest to be a beacon of democracy worldwide.

Philosophical and Ideological Influences

The secret destiny of America is also shaped by various philosophical and ideological currents. Enlightenment ideas such as liberty, equality, and reason played a pivotal role in shaping the nation's identity. Additionally, concepts like Manifest Destiny and exceptionalism have contributed to the belief that America has a unique mission in the world.

Enlightenment Principles and Democratic Ideals

The Enlightenment provided the intellectual foundation for America's political and social systems. Thinkers like John Locke and Montesquieu inspired the emphasis on natural rights and separation of powers. These ideas underpin the secret destiny of America by promoting governance rooted in freedom and justice.

Manifest Destiny and Expansionism

In the 19th century, the doctrine of Manifest Destiny articulated a belief that America was destined to expand across the continent. This ideology reflected a sense of divine mission and national exceptionalism, reinforcing the secret destiny of America as a continental power and a model for progress.

Historical Milestones Shaping America's Path

Throughout its history, America has experienced defining moments that have propelled it toward fulfilling its secret destiny. These milestones include wars, social movements, and technological advancements that have shaped the nation's character and global standing.

The Revolutionary War and Birth of a Nation

The American Revolution was a critical event that set the nation on a path toward self-determination and democratic governance. It marked the beginning of the secret destiny of America as a country committed to freedom and independence.

The Civil War and National Unity

The Civil War tested America's commitment to its founding ideals, particularly the principles of liberty and equality. The conflict and its resolution reinforced the secret destiny of America as a unified nation

dedicated to human rights and national cohesion.

Industrialization and Technological Innovation

The rapid industrial growth and technological breakthroughs in the late 19th and early 20th centuries transformed America into a global economic power. These developments contributed to the secret destiny of America by enhancing its capacity for influence and leadership worldwide.

America's Role in Global Affairs

The secret destiny of America extends beyond its borders, influencing global politics, economics, and culture. The nation's involvement in international conflicts, diplomacy, and global governance reflects its ongoing mission and responsibilities.

World Wars and the Rise to Superpower Status

America's participation in World War I and World War II marked its emergence as a global leader. The post-war period saw the United States take on a central role in shaping international institutions and promoting democratic values, integral components of its secret destiny.

Cold War and the Ideological Struggle

The Cold War era highlighted America's commitment to countering authoritarianism and spreading democracy. This ideological confrontation reinforced the secret destiny of America as a defender of freedom on the global stage.

Contemporary Global Challenges and Leadership

In the 21st century, America faces complex challenges such as terrorism, climate change, and shifting geopolitical dynamics. Its responses to these issues continue to define the secret destiny of America as a nation striving to lead and inspire worldwide cooperation.

Cultural and Social Dimensions of the Destiny

The secret destiny of America is also reflected in its diverse cultural landscape and social evolution. The nation's identity is shaped by immigration, civil rights movements, and ongoing efforts toward inclusivity and justice.

The Melting Pot and Cultural Diversity

America's demographic diversity is a key aspect of its secret destiny. The blending of cultures, languages, and traditions has created a dynamic society

that fosters innovation and resilience.

Social Movements and Progress

Throughout history, social movements advocating for civil rights, gender equality, and social justice have propelled America toward fulfilling its promise of liberty and equality. These movements underscore the secret destiny of America as a nation continuously striving for a more perfect union.

Education and Innovation as Drivers

Education and technological innovation are central to America's cultural and social destiny. The country's commitment to research, creativity, and knowledge dissemination supports its role as a global leader and catalyst for progress.

Prophetic and Symbolic Interpretations

Many interpretations of the secret destiny of America incorporate prophetic and symbolic elements. These perspectives view the nation's history and future through the lens of spiritual, religious, or visionary frameworks.

Religious and Spiritual Perspectives

Some views hold that America has a divine mission or providential role in human history. This belief is often associated with the nation's founding principles and its ongoing pursuit of justice and freedom.

Symbols and National Mythology

Symbols such as the eagle, the Statue of Liberty, and the American flag embody the ideals linked to the secret destiny of America. These icons represent the nation's values and aspirations, reinforcing a shared sense of identity and purpose.

Predictions and Future Outlook

Various prophetic interpretations speculate on America's future role in global affairs and human evolution. While diverse in nature, these perspectives commonly emphasize themes of leadership, renewal, and transformation aligned with the secret destiny of America.

the secret destiny of america: The Secret Destiny of America Manly P. Hall, 2008-09-18

From the author of the landmark Secret Teachings of All Ages comes two classic works on the mysterious origins and unique mission of America: *The Secret Destiny of America* and *America's Assignment with Destiny*. Focusing on often-forgotten moments in history, Manly P. Hall proposes that there was a Great Plan put forth one thousand years before our nation's founding: humanistic and mystical organizations wished for the continent to be the location for an experiment in self-government and religious freedom. As one of the leading esoteric scholars of the twentieth century, Hall offers an intriguing view of our past, discussing everything from the symbolism of the Great Seal of the U.S. to the prophecy announced at George Washington's birth.

the secret destiny of america: Secret Destiny of America Manly P. Hall, 2024-07-09 The Signature Edition of Manly P. Hall's Esoteric Classics on America Fully reset and newly introduced by PEN Award-winning historian Mitch Horowitz, *The Secret Destiny of America* (1944) and *America's Assignment with Destiny* (1951) are Manly P. Hall's core statements on the esoteric purpose and occult backstory of the United States. In these two volumes appears Hall's thrilling thesis that democracy and personal liberty are part of a "Great Plan" extending from the pharaonic era to Hellenic secret societies to illumined intellects such as Francis Bacon and Christopher Columbus to modern expressions of Rosicrucianism and Freemasonry, finally blossoming among the ideals of America's Founders. In his introduction, Mitch explores the historicism of Hall's writing on America, highlighting lasting points and augmenting the record where new information is available. Mitch specifically considers the Atlantean thesis from the perspective of the twenty-first century;

reviews Hall's career-long influence on President Ronald Reagan; examines the eye-and-pyramid of the Great Seal of the United States; contextualizes the impact of Freemasonry on the nation's founding; explores Mesoamerican civilization and its complexities; and critically considers the role of secret societies in modern life. "Hall ranks among the few historical writers who at least recognized the inceptive role of Freemasonry in America's founding," Mitch writes, "a perspective only recently granted overdue treatment in scholarly literature." Indeed, it was Manly P. Hall alone who kept alive the light of esoteric ideas—and their role in the nation's formation—during the time he produced these seminal volumes. They are presented here, with a substantial historical introduction, in their definitive form.

the secret destiny of america: *The Secret History of America* Manly P. Hall, 2019-05-07 A compilation of rare works on the untold history and destiny of America by acclaimed occult writer Manly P. Hall. Writer and scholar Manly P. Hall (1901-1990) is one of the most significant names in the study of the esoteric, symbolic, and occult. His legendary book *The Secret Teachings of All Ages* has been an underground classic since its publication in 1928. *The Secret History of America* expands on that legacy, offering a collection of Hall's works—from books and journals to transcriptions of his lectures—all relating to the hidden past and unfolding future of our nation. Hall believed that America was gifted with a unique purpose to explore and share principles of personal freedom, self-governance, and independent thought. PEN Award-winning historian, Mitch Horowitz has curated a powerful collection of Hall's most influential and insightful works that capture and explore these ideas. Never before collected in one volume, the material in *The Secret History of America* explores the rich destiny, unseen history, and hidden meaning of America.

the secret destiny of america: Ritual America Craig Heimbichner, Adam Parfrey, 2012-03-06 Adam Parfrey is one of the nation's most provocative publishers.—Seattle Weekly Secret society historian Craig Heimbichner follows the Middle Path to wisdom. He works the graveyard shift in the secret lodge.—Joan d'Arc, Paranoia magazine Secret societies—now a staple of bestseller novels—are pictured as sinister cults that use hooded albinos to menace truth-seekers. Some conspiracy books claim that fraternal orders are the work of serpentine aliens and interbred humans who wish to supplant earth of its energy, and later, its very existence. On the other side of the aisle, books by high-ranked Freemasons—skeptical in tone but no less partisan in approach—protect their organization's public image by denying the existence of its most contentious ideas. *Ritual America* reveals the biggest secret of them all: that the influence of fraternal brotherhoods on this country is vast, fundamental, and hidden in plain view. In the early twentieth century, as many as one-third of America belonged to a secret society. And though fezzes and tiny car parades are almost a thing of the past, the Gnostic beliefs of Masonic orders are now so much a part of the American mind that the surrounding pomp and circumstance has become faintly unnecessary. The authors of *Ritual America* contextualize hundreds of rare and many never-before printed images with entertaining and far-reaching commentary, making an esoteric subject provocative, exciting, and approachable. the secret destiny of america: Uncertain Places Mitch Horowitz, 2022-11-08 An exploration of our extraordinary shift away from materialism toward renewal of the numinous, mysterious, and uncertain • Examines topics that evoke widespread misunderstanding, including the real history of secret societies, the wisdom of the Satanic, Gnosticism, Hermeticism, out-of-body experience, and the contemporary war on witches • Looks at the influence of the founding lights of modern occultism, including mystic Neville Goddard, occult scholar Manly P. Hall, and surrealist filmmaker David Lynch, and debunks famous pseudo-skeptics such as the Amazing Randi • Explores magickal practices, including Anarchic Magick, mind metaphysics, the Law of Attraction, and Ouija boards, and upends hallowed spiritual concepts like forgiveness All of us today dwell in uncertain places--realities in which thoughts make things happen, ESP is provable by the scientific methods once used to debunk it, UFOs are mainstream, and magick no longer requires rite and ritual but is as near as your own mind. Today's leading voice of esotericism and the occult, Mitch Horowitz explores topics that evoke widespread misunderstanding, including the real history of secret societies, the wisdom of the Satanic, the relevance of Gnosticism, and the slender but authentic connection between today's spiritual culture and antiquity, including in areas of Hermeticism, deity worship, out-of-body experience, and magick. He demonstrates the occult roots of wide-ranging facets of modern culture, including politics, abstract art, mind-body healing, self-help, and breakthrough scientific fields such as quantum physics and neuroplasticity. He looks at the influence of the founding lights of modern occultism, including mystic Neville Goddard, occult scholar Manly P. Hall, and surrealist filmmaker David Lynch, and provides a magnificent take-down of famous debunkers and pseudo-skeptics such as the Amazing Randi. He explores magickal practices, including Anarchic Magick, mind metaphysics, the Law of Attraction, and the history of Ouija boards and questions time-honored spiritual values like forgiveness. Mitch also examines the contemporary war on witches around the world and what it is like to be blacklisted. Offering a thought-provoking investigation of the spiritual, the occult, the magickal, and the extra-physical, Mitch lays the groundwork for readers to continue their own journeys into these esoteric streams of consciousness.

the secret destiny of america: The Secrets of Masonic Washington James Wasserman, 2008-11-26 A fully illustrated guide to the Masonic origins and present-day Masonic sites of Washington, D.C. • Provides a walking tour of the Masonic sites and symbols of the city • Explores the critical role of Freemasonry in the founding of the United States • By the author of *The Templars and Assassins* In this guide to the Masonic underpinnings of America's capital, James Wasserman reveals the esoteric symbols and the spiritual and visionary ideas that lie hidden in the buildings, monuments, and physical layout of Washington, D.C. His walking tour of these Masonic sites includes both the expected and unexpected--from the Lincoln Memorial and the Capitol Building to the Federal Reserve complex, National Academy of Sciences, and the Library of Congress. Each location includes descriptions, interpretations, and explanations of the Masonic symbols and ritualistic meanings hidden within its structure, all illustrated with contemporary color and historic black-and-white photographs. Wasserman explains the purpose behind putting these symbols and Masonic designs into the capital and how all these monuments fit into the spiritual vision held by the founding fathers. He reveals the prominent role that Freemasonry played in the 18th-century Enlightenment movement and shows how in the New World of America, free of monarchy and aristocracy, the ideas of the Enlightenment were able to flourish. This illustrated guidebook to the Masonic secrets of Washington, D.C., provides valuable insights on the founding of America. It will be welcomed by students of esoteric art and symbolism, admirers of American history, and devotees of Dan Brown novels and *National Treasure* movies.

the secret destiny of america: Antichrist Osiris: the History of the Luciferian Conspiracy Chris Relitz, 2012-06-01 The Legends of many cultures claim that the world was once destroyed in a

cataclysmic flood. Many cultures also claim that someday the world will again be destroyed in a similar fashion. In the Bible we are told that the disciples once asked Jesus if there would be a warning sign prior to this destructive event. He said that there would indeed be a sign. Jesus said that whatever was happening in the Days of Noah will happen again before the end of this age. The Bible has only a few verses about Noah's Flood. So we are forced to turn to the ancient flood legends of over 350 other cultures to learn more about this prophecy. But Noah's days did not end with the flood, he lived for many years afterward. He saw the creation of a tower in Babylon. This is interesting because the Freemasons claim that their Order originated here. Here is the most thorough examination of Freemasonry ever undertaken, using their own texts, to solve the Days of Noah prophecy.

the secret destiny of america: Invoking the Beyond: Paul D. Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the "Kantian Rift," an epistemological barrier between external reality and the mind of the percipient. Arbitrarily proclaimed by German philosopher Immanuel Kant, this barrier rendered the world as a terra incognita. Suddenly, the world "out there" was deemed imperceptible and unknowable. In addition to the outer world, the cherished metaphysical certainties of antiquity—the soul, a transcendent order, and God—swiftly evaporated. The way was paved for a new set of modern mythmakers who would populate the world "out there" with their own surrogates for the Divine. Collectively, these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity. In recent years, the Beyond has been invoked by theoreticians, literary figures, intelligence circles, and deep state operatives who share some variant of a technocratic vision for the world. In turn, these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man. Their hegemony has been legitimized through the invocation of a wrathful earth goddess, a technological Singularity, a superweapon, and extraterrestrial "gods." All of these are merely masks for the same counterfeit divinity... the Beyond.

the secret destiny of america: The Role of Consciousness in Governance Etta D. Jackson, 2008-10-01 The Role of Consciousness in Governance explains how the Divine Will and Plan for Humanity must be manifested on Earth through the governments of all countries. For the Divine destiny of Humanity to become a reality, the governments on Earth must be perfect reflections of the one Above. The book reveals that the Spiritual Hierarchy, consisting of Adepts and Initiates, which has always had the responsibility for guiding the affairs of Humanity, is now no longer operating in secret due to the recognition and acceptance by Humanity of their existence and function which is a direct result of man's evolving awareness and consciousness. This Spiritual Hierarchy constitutes the New World Order, whose nucleus is now on Planet Earth and represents a new species of organic life. The book concludes by explaining both the pivotal role the United States of America plays in fulfilling the Divine Plan for the planet, and the creation of the New World Order, in order to establish the Kingdom of Heaven on Earth. This is demonstrated by the importance of the esoteric document, the Declaration of Independence, which was given to the USA to guide Humanity towards enlightenment.

the secret destiny of america: The Secret Founding of America Nicholas Hagger, 2016-11-15 The widely accepted story of the founding of America is that The Mayflower delivered the first settlers from Plymouth to the New World in 1620. Yet in reality, the Jamestown settlers had already become the first English-speaking outpost thirteen years earlier in 1607. The Secret Founding of America introduces these two groups of founders - the Planting Fathers, who established the earliest settlements along essentially Christian lines, and the Founding Fathers, who unified the colonies with the Declaration of Independence and the Constitution - and it argues that the new nation, conceived in liberty, was the Freemasons' first step towards a new world order. Drawing on original findings and an in-depth understanding of the political and philosophical realities of the time, historian Nicholas Hagger charts the connections between Gosnold and Smith, Templars and Jacobites, and secret societies and libertarian ideals. He also explains how the influence of German

Illuminati worked on the constructors of the new republic, and shows the hand of Freemasonry at work at every turning point in America's history, from Civil War to today's global struggles for democracy.

the secret destiny of america: The United Symbolism of America Robert Hieronimus, 2008-04-15 The historian author of *Founding Fathers*, *Secret Societies* offers a revealing analysis of America's many symbols, icons, and monuments. America is young, but its symbols are old. Many of them—from the stars and stripes in the American flag to the strange images on our currency—have become so familiar that most of us don't give them a second thought. In *United Symbolism of America*, Robert R. Hieronimus will help you see the symbolic messages encoded for us by our Founding Fathers in the symbols they chose. Unlike other writers on this topic, Hieronimus discusses the historical background and artistic influences behind the design of our symbols and landmarks. *United Symbolism of America* includes revealing information about the symbolism embedded in The Statue of Liberty, the Liberty Bell, and many of the monuments found in Washington, D.C. Putting to rest the erroneous notion that our country's symbolism is rooted in Satanism, Hieronimus demonstrates that the symbols that have become our national icons represent hope, growth, and opportunity.

the secret destiny of america: New Age Bible of Mother Africa (Volumes 1 & 2) T Lindsey-Billingsley, 2019-12-13 The author, T. Lindsey-Billingsley, has compiled a no-nonsense philosophical study guide exploring racial origins, the African origins of humanity, and prehistoric Kemetic influence throughout the world. The main focus of these studies is on the anthropological and physiological makeup of racial groups, with indepth research into both the 'Out of Africa' theories and divine creationism myths. Billingsley supplies concrete evidence to support her conclusions on the true human experience, in lieu of, popular speculation and theory devoid of logic and sound proof. In this, and subsequent volumes, the author will establish a new perspective of thinking that will tempt you to challenge the validity of theological creationism and evolution, whilst substantiating a strong position on intelligent design and extraterrestrial intervention.

the secret destiny of america: One Simple Idea Mitch Horowitz, 2014-01-07 From the millions-strong audiences of Oprah and The Secret to the mass-media ministries of evangelical figures like Joel Osteen and T. D. Jakes, to the motivational bestsellers and New Age seminars to the twelve-step programs and support groups of the recovery movement and to the rise of positive psychology and stress-reduction therapies, this idea--to think positively--is metaphysics morphed into mass belief. This is the biography of that belief. No one has yet written a serious and broad-ranging treatment and history of the positive-thinking movement. Until now. For all its influence across popular culture, religion, politics, and medicine, this psycho-spiritual movement remains a maligned and misunderstood force in modern life. Its roots are unseen and its long-range impact is unacknowledged. It is often considered a cotton-candy theology for New Agers and self-help junkies. In response, *One Simple Idea* corrects several historical misconceptions about the positive-thinking movement and introduces us to a number of colorful and dramatic personalities, including Napoleon Hill and Norman Vincent Peale, whose books and influence have touched the lives of tens of millions across the world.

the secret destiny of america: The Great White Brotherhood Elizabeth Clare Prophet, 2020-08-31 Throughout the ages, there have been men and women in every race and religion that have mastered time and space, transcended the cycles of karma and rebirth, and returned to the Source of all life. By attaining the goal of life, the ascension, these souls have become ascended masters. In this book, drawn from the author's pivotal spiritual conference held at Mount Shasta in 1975, you will discover how the saints and sages of both East and West work together behind the scenes of life with seekers in every field of human endeavor. Learn about this vast brotherhood of light, known as the Great White Brotherhood (the word "white" refers not to race but to the aura of white light that surrounds these ascended masters), their devotion to humanity, and their tireless efforts to help you and those you love. Contains an easy-to-understand and unique approach to spiritual astrology called the "Cosmic Clock," with diagrams. Also explores key interpretations of the

Book of Revelation, America's unique role, and the little-known vision of George Washington and the prophecy of Sir William Hope about the future of America.

the secret destiny of america: Two Crowns for America Katherine Kurtz, 2011-12-14
Bestselling fantasist Katherine Kurtz combines magic, Freemasonry, and the revelation in this spellbinding tale of the American Revolution as it might have been . . . It's 1775, and in Europe, an unseen Master peers into a darkened mirror to see the man whose destiny is to wear the victor's crown. Across the sea, in a land named for a virgin queen, Gen. George Washington is thrown from his horse and has a dream that will haunt him for the rest of his life. Soon, a reluctant Washington will be elected Commander-in-Chief of the new Continental Army and considered for the position of king of America—and his rise will set in motion a chain of events that lead directly to rebellion. But little do the colonists and Founding Fathers realize that they are part of a greater plan, being used as pawns in another person's game of power and conquest. "A fascinating blend of history, adventure and conjecture which will excite the reader page after page."—Abilene Reporter-News
