this was your life movie: When God Rescripts Your Life Jaci Velasquez, 2019-10-08 Much of what happens in our lives is not what we planned, not what we expected, and certainly not what we would have chosen. At a young age, Jaci Velasquez's singing career rocketed to stardom, and her marriage thrived—then both suddenly crashed. Losing her reputation, her record label, and even some of her most-treasured relationships, Jaci began a long, healing journey from thinking of herself not as a Christian music darling or a broken young woman but as a beloved child of God. Today, her renewed faith carries her through a resurrected career, the adventures of a second marriage, and the ups-and-downs of being a mother of a child who has autism. *When God Rescripts Your Life* is Jaci's exploration of the lessons she's learned living a story full of mistakes and grace, rejection and contentment, worldly success and spiritual rest. Drawing on lessons from biblical characters such as Aaron, Joseph, and Paul, as well as from illustrations from her own life, Jaci reminds us how God loves to rewrite pain and weakness into a glorious tale of redemption. The most difficult parts of life don't need to be removed; they need to be rescripted.

this was your life movie: Create Your Ideal Life Mary Zahm, 2010-07-08 Some pursue happiness — Others create it! — Anonymous The chief purpose of Create Your Ideal Life is to empower you to proactively (intentionally and consciously) and continually create your ideal life in a joyful and balanced fashion by following the holistic (emphasizing the importance of the whole and the interdependence of its parts) Life Creation Process described in it. Following the Life Creation Process will help you to gain the level of self-understanding required to optimize the quality of your life and achieve personal growth. As you read this book, you will be introduced to the key concepts of applied psychology of personal adjustment and growth. The term applied indicates that the material provided is practical and that you can readily use the concepts provided to create and control your self and your life. The words psychology of personal adjustment indicate that one focus of the book is upon "... the individual's response to the physical, psychological, and social demands of the self, other people, and the environment" (Napoli, Kilbridge & Tebbs, 1996, p. 4). The words psychology of personal growth indicate that another focus is upon "... the process by which the individual changes his or her thoughts, feelings, or behaviors regarding the self, others, or the environment" (Napoli and others, 1996, p. 4). Additionally, you will learn effective strategies for exploring life choices and making decisions, managing life changes, changing self-defeating beliefs and habits, coping effectively with stress, and developing effective interpersonal relationships. You will also discover the important role that essential beliefs and core values play in the decision-making process and the problems that can arise out of value conflicts. I have provided true stories from my own life and from the lives of my family members, friends, and students to clarify and underscore key points. The stories are all true. However, some of the names were changed to protect each person's privacy, except in cases where permission was granted to use the person's real name. Throughout this book, I have used a cinematic (pertaining to the movie industry) analogy to explain the spiritual, psychological, physical, and social issues involved in personal adjustment and growth across the life span. I have used the cinematic analogy to both simplify and dramatize the key concepts in the holistic Life Creation Process in order to make them easier for you to understand, learn to use, and remember. In addition to the mnemonic (memory-enhancing) value of the cinematic analogy, I believe it makes the complex concepts involved in the holistic Life Creation Process easy to discuss with and teach other people. Most people are already familiar with the meaning of most of the movie industry terms used such as star, actor, screen image, script, cast, producer, director, and sequel, and they understand how all the key aspects of a movie can either contribute to its success or ruin the entire project. Therefore, using the cinematic terms makes it easier for people to comprehend how all the key aspects of their Ideal Future Life must be harmonious in order to achieve the desired results. As you complete the Life Creation Process Exercises, you will be directed to analyze the key aspects of your Present Life and create a script for your Ideal Future Life using techniques that are similar to those employed by successful movie stars, directors, producers, set designers, and script writers (e.g., DiTillio., 1995). You will also be guided to identify the Transitional Life goals that you will need to achieve in order to segue from living your Present Life to living your Ideal Future Life. The Ideal Future Life that you design at this present time is definitely not all there is or will ever be possible in your life. As you grow and change, you will update your vision of your ideal life. Learning the tools and techniques used in the Life Creation Process Exercises will empower you to continually recreate your Ideal Future Life through planned sequels in order to keep your life well balanced and overflowing with happiness and spiritual joy. The resources used for this book reflect my multidisciplinary approach to the Life Creation Process as well as my positive psychological orientation. I have included concepts from the traditional scholarly social-psychological literature, the popular self-help and self-improvement literature, and the media (plays, movies, tv, newspapers and magazines). The material includes both multidisciplinary academic resources and popular self-improvement resources that I have used, and

found to be beneficial, during my own explorations in personal adjustment, growth, and Ideal Future Life creation. Most of the new material in this revised version of Create Your Ideal Life is from information that I have incorporated into my lectures, in-class exercises, and course assignments over the past 15 years.
