Overview of Words Their Way Curriculum

The Words Their Way curriculum is an innovative word study program that integrates spelling, phonics, vocabulary, and word recognition into a cohesive instructional framework. It is designed to meet the needs of learners at different stages of literacy development, from emergent readers to proficient spellers. The curriculum's foundation lies in developmental spelling stages, which guide teachers in selecting appropriate word study activities based on students' current abilities. This individualized approach allows for targeted instruction that fosters deeper understanding of word patterns and language structure.

Developed by educators and researchers, the curriculum is widely adopted in elementary and middle school classrooms across the United States. It emphasizes active learning through hands-on word sorting activities, which encourage students to analyze and categorize words based on phonetic and structural features. The progressive nature of the Words Their Way curriculum enables students to build upon their existing knowledge systematically, promoting long-term retention and application of literacy skills.

Core Components of the Curriculum

The Words Their Way curriculum is composed of several key elements that collectively support comprehensive word study instruction. Each component is designed to interact synergistically, ensuring that students develop a balanced understanding of language.

Developmental Spelling Stages

At the heart of the curriculum are developmental spelling stages that categorize learners into groups based on their spelling and word recognition skills. These stages include Emergent, Letter Name-Alphabetic, Within Word Pattern, Syllables and Affixes, and Derivational Relations. By identifying a student's stage, educators can tailor lessons that align with their specific learning needs.

Word Sorts

Word sorts are a central activity in the curriculum, involving students in sorting words into categories according to phonetic, structural, or meaning-based features. These interactive tasks promote active engagement and critical thinking about word patterns. Word sorts are typically presented in various formats, including sound sorts, picture sorts, and closed sorts, allowing for differentiated instruction.

Phonemic Awareness and Phonics

The curriculum integrates phonemic awareness and phonics to strengthen foundational reading skills. Through explicit instruction and practice, students learn to recognize sound-letter relationships and decode unfamiliar words effectively. This component supports early readers as well as those needing reinforcement in phonological skills.

Vocabulary and Word Meaning

Vocabulary development is incorporated through activities that explore word meanings, synonyms, antonyms, and word origins. Understanding word meanings enhances comprehension and usage, contributing to more sophisticated language skills. This aspect of the curriculum supports both oral and written language development.

Spelling and Writing Application

Words Their Way encourages the application of studied words in spelling and

writing tasks. Students practice spelling patterns in context, which aids in transferring word study knowledge to real-world literacy activities. Writing activities also help reinforce vocabulary acquisition and syntactic understanding.

Instructional Strategies and Implementation

Effective implementation of the Words Their Way curriculum requires strategic instructional approaches that accommodate diverse learner profiles. The curriculum offers flexibility for teachers to adapt lessons based on classroom dynamics and student progress.

Differentiated Instruction

Differentiated instruction is a cornerstone of the Words Their Way curriculum, allowing educators to group students by developmental spelling stages and customize word study activities accordingly. This approach ensures that instruction is neither too simple nor too challenging, fostering optimal learning conditions.

Hands-On, Interactive Learning

The curriculum emphasizes hands-on activities such as word sorting, where students physically manipulate word cards to identify patterns. This kinesthetic approach enhances engagement and helps solidify concepts through active exploration and discovery.

Teacher Modeling and Guided Practice

Teachers play a crucial role by modeling sorting strategies and guiding students through the analysis of words. Explicit instruction combined with scaffolded practice enables learners to internalize word patterns and strategies efficiently.

Use of Word Study Notebooks

Students maintain word study notebooks to document sorts, record observations, and reflect on learning. These notebooks serve as personalized resources and support metacognitive development by encouraging self-monitoring and tracking of progress.

Integration with Other Literacy Instruction

The Words Their Way curriculum complements broader literacy instruction, including reading comprehension and writing workshops. Integrating word study with these components creates a comprehensive literacy environment that addresses multiple facets of language development.

Assessment and Progress Monitoring

Assessment is integral to the Words Their Way curriculum, enabling educators to identify students' developmental stages and monitor their growth over time. The program provides various tools and methods for effective evaluation.

Initial Spelling Inventory

The Initial Spelling Inventory is a diagnostic assessment used to determine students' spelling stages by analyzing their attempts to spell dictated words. This inventory informs instruction by pinpointing specific areas of strength and need.

Progress Monitoring Inventories

Progress monitoring inventories are administered periodically to assess students' advancement through the developmental stages. These assessments help teachers adjust instruction and provide targeted interventions as necessary.

Informal Observations and Word Sort Analysis

Teachers use informal observations during word sort activities to evaluate students' understanding and application of word patterns. Analyzing errors and sorting strategies offers insights into cognitive processes and areas requiring reinforcement.

Record Keeping and Data Management

Maintaining detailed records of assessment results and instructional responses supports data-driven decision-making. The curriculum encourages systematic documentation to track individual and group progress effectively.

Benefits and Effectiveness in Literacy Development

The Words Their Way curriculum offers numerous advantages that contribute to improved literacy outcomes for diverse student populations. Its research-based framework and practical methodologies support effective teaching and meaningful learning.

Individualized Learning Pathways

By addressing students' specific developmental stages, the curriculum ensures personalized learning experiences. This individualized approach enhances motivation and confidence, leading to better engagement and achievement.

Improved Phonemic and Orthographic Awareness

Students develop heightened awareness of phonemes and orthographic patterns, which are critical for decoding and spelling. This awareness facilitates smoother transitions from phonetic spelling to conventional spelling norms.

Enhanced Vocabulary and Word Recognition

The curriculum's emphasis on vocabulary expansion and word meaning supports broader reading comprehension and communication skills. Students become more adept at recognizing and using a wide range of words accurately.

Teacher Support and Professional Development

Words Their Way provides extensive teacher resources and training opportunities to enhance instructional effectiveness. Professional development ensures educators are well-equipped to implement the curriculum with fidelity.

Adaptability Across Grade Levels and Settings

The curriculum's flexible design makes it suitable for various grade levels and instructional contexts, including general education classrooms, special education, and English language learner settings. This adaptability maximizes its reach and impact.

- Developmental spelling stages guide individualized instruction
- Hands-on word sorts promote active learning

- Ongoing assessment informs teaching strategies
- Integration with reading and writing enhances literacy development
- Supports diverse learners through differentiated approaches

Words Their Way(r) companion volumes, 2e We believe that the hands-on word sorting approach to word study is invaluable to you and your students. These stage-specific companion volumes to Words Their Way(r): Word Study for Phonics, Vocabulary, and Spelling Instruction provide a complete curriculum of reproducible sorts and detailed directions for the teacher working with students in each stage of spelling development, from emergent through derivational relations. This first volume introduces the idea of concept sorts for students in the emergent stage of spelling development (Pre-K through Grade 1). The word study lesson plan format of demonstrate, sort, check, and reflect is expanded in this stage to include reading aloud and writing activities. The early concept sorting activities are followed with picture sorts that develop phonemic awareness and include activities for rhyming, syllabication, and sound play. Alphabet knowledge and letter recognition are then covered, along with sorts that look at concept of word in print, as well as poems, jingles and short text selections that can be shared with children. Students are then ushered into sorts that introduce beginning consonants with pictures, laying the foundation for the letter-name stage.

words their way curriculum: Words Their Way[™]. What Works Clearinghouse Intervention Report What Works Clearinghouse (ED), 2013 Words Their Way[™] is an approach to phonics, vocabulary, and spelling instruction for students in kindergarten through high school. The program can be implemented as a core or supplemental curriculum and aims to provide a practical way to study words with students. The purpose of word study (which involves examining, manipulating, comparing, and categorizing words) is to reveal logic and consistencies within written language and to help students achieve mastery in recognizing, spelling, and defining specific words. The What Works Clearinghouse (WWC) identified 29 studies of Words Their Way[™] for beginning readers that were published or released between 1983 and 2012. One study is within the scope of the Beginning Reading review protocol but does not meet WWC evidence standards. The study uses

a quasi-experimental design but does not establish that the comparison group was comparable to the intervention group prior to the start of the intervention. Fifteen studies are out of the scope of the Beginning Reading review protocol because they have an ineligible study design. Eleven studies are literature reviews or meta-analyses. Four studies do not use a comparison group design, a regression discontinuity design, or a single-case design. Thirteen studies are out of the scope of the Beginning Reading review protocol for reasons other than study design. Eleven studies do not use a sample aligned with the protocol--the sample does not fall within the Beginning Reading grade range of K-3. Two studies include fewer than 50% general education students. A glossary of terms is included. (Contains 3 endnotes.).

This collection of sorts includes both picture and word sorts for students who are in the letter name-alphabetic stage of spelling development, beginning readers. Sorting lessons begin with picture sorts that quickly review initial consonants and then cover same-vowel word families and digraphs and blends. These sorting activities are followed by a short vowel study apart from word families and continue reviewing digraph and blends in CVC words. The last sorts introduce r-controlled vowels and contractions.

words their way curriculum: Words Their Way: Pearson New International Edition Marcia Invernizzi, 2013-08-06 The book begins by reexamining short- and long-vowel sounds with picture sorts, moving on to word sorts to thoroughly examine vowel patterns and assess students' understanding of short- and long-vowel patterns. The text moves on to diphthongs and other ambiguous vowel sounds, and finally to complex consonants and consonant clusters, contractions, inflectional endings and homophones.

words their way curriculum: Critical Thinking Across the Curriculum Diane F. Halpern, 2014-02-04 Consider that many of the people who are alive today will be working at jobs that do not currently exist and that the explosion of information means that today's knowledge will quickly become outdated. As a result, two goals for education clearly emerge -- learning how to learn and how to think critically about information that changes at a rapid rate. We face a multitude of new challenges to our natural environment, difficult dilemmas concerning the use of weapons of mass destruction, political agendas for the distribution of scarce commodities and wealth, psychological problems of loneliness and depression, escalating violence, and an expanding elderly population. International in scope and in magnitude, these new problems strain resources and threaten the continuance of life on earth. To creatively and effectively attack these imminent problems, a well educated, thinking populace is essential. An abridged edition of Halpern's best-selling text, Critical Thinking Across the Curriculum is designed to help students enhance their thinking skills in every class. The skills discussed are needed in every academic area and setting -- both in and out of class. They are: determining cause; assessing likelihood and uncertainty; comprehending complex text; solving novel problems; making good decisions; evaluating claims and evidence; and thinking creatively. In this adaptation of her best-selling text, Diane Halpern applies the theories and research of cognitive psychology to the development of critical thinking and learning skills needed in the increasingly complex world in which we work and live. The book is distinguished by its clear writing style, humorous tone, many practical examples and anecdotes, and rigorous academic grounding. Everyday examples and exercises promote the transfer of critical thinking skills and dispositions to real-world settings and problems. The goal is to help readers recognize when and how to apply the thinking skills needed to analyze arguments, reason clearly, identify and solve problems, and make sound decisions. Also of importance, a general thinking skills framework ties the chapters together, but each is written so that it can stand alone. This organization allows for maximum flexibility in the selection of topics and the order in which they are covered. This book is intended for use in any course emphasizing critical thinking as an approach to excellence in thinking and learning.

words their way curriculum: Planning the Primary National Curriculum Keira Sewell, 2018-01-15 This book explores assessment opportunities, how the teaching of each subject can be organised, key and essential resources in each subject, and how ICT can best be used in each subject to enhance teaching.

words their way curriculum: Words Their Way Donald R. Bear, Marcia Invernizzi, Francine Johnston, Shane Templeton, 2009-01-23 We believe that the hands-on word sorting approach to word study is invaluable to you and your students. These stage-specific companion volumes to Words Their Way: Word Study for Phonics, Vocabulary, and Spelling Instruction provide a complete curriculum of reproducible sorts and detailed directions for the teacher working with students in each stage of spelling development, from emergent through derivational relations. This first volume introduces the idea of concept sorts for students in the emergent stage of spelling development (Pre-K through Grade 1). The word study lesson plan format of demonstrate, sort, check, and reflect is expanded in this stage to include reading aloud and writing activities. The early concept sorting activities are followed with picture sorts that develop phonemic awareness and include activities for

rhyming, syllabication, and sound play. Alphabet knowledge and letter recognition are then covered, along with sorts that look at concept of word in print, as well as poems, jingles and short text selections that can be shared with children. Students are then ushered into sorts that introduce beginning consonants with pictures, laying the foundation for the letter-name stage.
