asylum game walkthrough: The Walkthrough Doug Walsh, 2019-05-16 The Walkthrough offers a rare peek behind the curtain of the secretive video game industry from an unlikely perspective, that of a career strategy guide writer. For eighteen years, Doug Walsh was one of the most prolific authors of officially licensed video game strategy guides. One part memoir and one part industry tell-all, The Walkthrough takes players on an entertaining march through gaming's recent history, from the dawn of the PlayStation to the Xbox 360 and Nintendo Switch. Follow along as Walsh retraces his career and reveals how the books were made, what it was like writing guides to some of the industry's most celebrated — and derided — titles, and why the biggest publishers of guidebooks are no longer around. Walsh devotes entire chapters to many of gaming's most popular franchises, including Tony Hawk's Pro Skater, Gears of War, and Diablo, among others. From inauspicious beginnings with Daikatana to authoring the books for the entire Bioshock trilogy, with plenty of highs, lows, and Warp Pipes along the way, Walsh delivers a rare treat to twenty-first century gamers. The Walkthrough is sure to satisfy the curiosity of anyone who grew up with the works of BradyGames and Prima Games sprawled across their laps. With over one hundred books to his credit, and countless weeks spent at many of the most famous studios in North America, he is uniquely qualified to give an insider's perspective of a little-known niche within the multi-billion-dollar industry.

asylum game walkthrough: Metroid Dread Mark C Frier, 2021-10-09 Metroid Dread is here, and it marks the conclusion to the decades-long story that's been told across the 2D side of the series, dating back to the original Metroid. While it may be a landmark game in that sense, the actual structure of it is very much still what you'd expect from a Metroid, as Samus starts out her journey stripped of her powers before slowly (and sometimes not so slowly) accumulating them again. It's typical Metroid fare, but whether it's been years since you last touched a game in the series or are making this your starting point, we've got some tips to help ensure your hours spent on the planet ZDR are dread-free. Dread is a challenging game, but in many ways, it's not especially punishing. The new EMMI enemies that have been featured all over the game's marketing pose a serious threat to Samus, but thanks to checkpoints just outside of the zones you inhabit, an encounter going awry with one will only set you back a minute or two at most. Boss battles can also be quite difficult until you learn their patterns, but you can make things easier on yourself by putting in some legwork beforehand. With all of that in mind, let's dive into the tips.
