Welcome to Pink Box's Eastward aide and walkthrough! With this aide, you can expect a full walkthrough from start to finish with systems for each stage, areas, everything being equal, and significantly more! I saw this game quite a while in the past and thinking the pixel craftsmanship was extremely beautiful, however I totally disregarded the game as of not long ago. I was made to accept that this game was a turn-based RPG, which had me energized for the game, however it isn't! This game is practically the same in style to Zelda, an activity RPG game set in a dystopian world. This game was created by Pixpil, which I accept is their first game. What a fabulous method to individuals to know you. Why individuals were energized is on the grounds that the distributor is Chucklefish, designer of Wargroove (the game like Advance Wars from GBA), but at the same time they're a distributor who brought games like Risk of Rain, Stardew Valley, and Timespinner. Nothing purchase quality games not too far off.
