After receiving your first Pokémon from Professor Kukui, you will be thrust into the exciting gameplay that defines the Pokémon series.

Choosing Your Starter Pokémon

Your choice of starter Pokémon is crucial, as it will accompany you throughout your adventure. The three options available are:

- **Rowlet** - A Grass/Flying-type Pokémon that evolves into Dartrix and then

Decidueye.

- **Litten** - A Fire-type Pokémon that evolves into Torracat and then Incineroar.
- **Popplio** - A Water-type Pokémon that evolves into Brionne and then Primarina.

Each starter has unique strengths and weaknesses that can influence your early gameplay strategy. After selecting your Pokémon, you are ready to begin your adventure in Alola.

Main Storyline Overview

The main storyline of Pokémon Ultra Sun and Ultra Moon revolves around your quest to become the Champion of the Alola region. You will encounter various challenges along the way, including gym battles, island trials, and encounters with the nefarious Team Skull. The narrative is enriched with character development and plot twists, making it an engaging experience.

Island Trials and Kahuna Battles

In Ultra Sun and Ultra Moon, players must complete a series of island trials to earn the right to challenge the Kahunas, the island's elite trainers. Each island presents unique trials that test your skills in different ways. The trials culminate in a battle against the Kahuna, where victory earns you powerful Z-Crystals.

- **Melemele Island:** The first island, featuring the trial of Mallow and the Kahuna Hala.
- **Akala Island:** Home to the trial of Lana and the Kahuna Nanu.
- **Poni Island:** The final island with trials led by Mina and the Kahuna Hapu.

Each trial emphasizes different Pokémon types and strategies, encouraging players to diversify their teams for success.

Key Locations and Island Challenges

Exploring Alola is one of the highlights of the game, with each island offering distinct environments and challenges. Key locations include bustling cities, serene beaches, and mysterious ruins.

Main Cities and Their Significance

Alola features several main cities, each with its own significance in the storyline:

- **Konikoni City:** Known for its rich culture and the location of one of the island trials.

These cities provide crucial resources, including Poké Centers for healing, shops for supplies, and battle arenas to challenge other trainers.

Battle Strategies and Pokémon Tips

Mastering battle strategies is essential for progressing through Ultra Sun and Ultra Moon. Understanding type advantages, move sets, and item usage can significantly enhance your performance in battles.

Type Matchups and Movesets

One of the critical aspects of battling is knowing Pokémon type matchups. Each type has strengths and weaknesses against others, which can dictate the outcome of battles. For example:

- Water is strong against Fire but weak against Electric.
- Grass is strong against Water but weak against Fire.

- Electric is strong against Water but weak against Ground.

Building a balanced team with varied types can help you handle different opponents and challenges effectively.

usum walkthrough: Metroid Dread Mark C Frier, 2021-10-09 Metroid Dread is here, and it marks the conclusion to the decades-long story that's been told across the 2D side of the series, dating back to the original Metroid. While it may be a landmark game in that sense, the actual structure of it is very much still what you'd expect from a Metroid, as Samus starts out her journey stripped of her powers before slowly (and sometimes not so slowly) accumulating them again. It's typical Metroid fare, but whether it's been years since you last touched a game in the series or are making this your starting point, we've got some tips to help ensure your hours spent on the planet ZDR are dread-free. Dread is a challenging game, but in many ways, it's not especially punishing. The new EMMI enemies that have been featured all over the game's marketing pose a serious threat to Samus, but thanks to checkpoints just outside of the zones you inhabit, an encounter going awry with one will only set you back a minute or two at most. Boss battles can also be quite difficult until you learn their patterns, but you can make things easier on yourself by putting in some legwork beforehand. With all of that in mind, let's dive into the tips.

usum walkthrough: EASTWARD Guide & Walkthrough Pink Box, 2021-09-26 Welcome to Pink Box's Eastward aide and walkthrough! With this aide, you can expect a full walkthrough from start to finish with systems for each stage, areas, everything being equal, and significantly more! I saw this game quite a while in the past and thinking the pixel craftsmanship was extremely beautiful, however I totally disregarded the game as of not long ago. I was made to accept that this game was a turn-based RPG, which had me energized for the game, however it isn't! This game is practically the same in style to Zelda, an activity RPG game set in a dystopian world. This game was created by Pixpil, which I accept is their first game. What a fabulous method to individuals to know you. Why individuals were energized is on the grounds that the distributor is Chucklefish, designer of Wargroove (the game like Advance Wars from GBA), but at the same time they're a distributor who brought games like Risk of Rain, Stardew Valley, and Timespinner. Nothing purchase quality games not too far off.

usum walkthrough: LIBRARY OF RUINA Guide & Walkthrough Li Hoa, 2021-09-14 Library of Ruina is a system game created by Project Moon, makers of Lobotomy Corporation - with this game actually being a spin-off of it. Nonetheless, you don't have to have played its archetype to play this game. On it, you manifest the overseers of every single one of the various floors of a reviled Library, constrained by the unfavorable Angela, every one of you incapable to get away. Your undertaking is to welcome and 'get' various Guests from the series' universe, and by 'get' we mean fight. Crushed Guests transform into Books, which you can use to reinforce yourself, however to welcome more hazardous ones, with a definitive goal of acquiring a definitive Book of the City that empowers to get away from the reviled Library. Nonetheless, this is more difficult than one might expect - this game will put you to the greatest test: not exclusively you'll have to put your cerebrum at work to beat your adversaries, but on the other hand there's the consistently erratic idea of karma. The mechanics of this game intensely spin around dice rolls, so you'll need to plan for the absolute worst case assuming you need to win.
