The game was released by Valve through Steam for Microsoft Windows and Mac OS X, while the PlayStation 3, Xbox 360 and retail Windows/OS X versions of the game are distributed by Electronic Arts. The game's release on Steam was preceded by a second multi-week alternate reality game, the Potato Sack, involving 13 independently-developed titles, culminating in a distributed computing spoof to release Portal 2 several hours early. Portal 2 comprises a series of puzzles that must be solved by teleporting the player's character and simple objects using the portal gun, a device that can create inter-spatial portals between flat planes.
