warlords ruin walkthrough: World of Warcraft Sunx1, 2021-05-22 This guide for the World of Warcraft: Warlords of Draenor is an indispensable tool of any player that wants to lead his character to saving the continent of Draenor from the might of the Iron Horde. The guide has been divided into two main parts: beginner's guide and a detailed description of all the aspects of the game. The former has been, primarily, designed for the newcomers to the game, as well as the ones that return, after some time off. In 10 easy steps, this guide presents the basic aspects of the gameplay, starting with the character creation process, through discussing the interface, the glossary to the presentation of the new element of the game - the garrison. The second part of the guide revolves around several key aspects of the game. It presents the expansion of the garrison, starting with obtaining resources, the suggested way to expand the fortress at the beginning of the game and a detailed description of the available buildings, including the profits that they ensure. It also presents the system of recruitment of followers and of dispatching them on missions. The description of each of the dungeons focuses, predominantly, on the battles with individual bosses, their attacks, their weaknesses and the ways to fight them. The next part of this guide presents all of the mounts that this expansion pack introduces, along with a short description of how such a mount can be obtained. The last part of the guide presents the suggested add-ons to the game, thanks to which it becomes less tedious, as regards some of its aspects, including the mod-management client installation process. The second part of this guide is intended for the intermediate players, although, also hardcore veterans of the World of Warcraft may find interesting information there. Warlords of Draenor is the fifth expansion pack for the most famous MMO in the world - World of Warcraft. It introduces thousands of new quests into the game, a continent that has been designed in detail, 8 new instances and several new elements of the gameplay.
