Common Issues and Solutions

- **Thread Bunching:** This is often a result of improper threading or tension issues. Consult the manual's threading diagram to ensure correct setup.
- **Needle Breakage:** If needles break frequently, check for correct needle type and installation as outlined in the manual.
- **Machine Not Sewing:** This can occur if the machine is not threaded correctly or if the presser foot is not engaged. Refer to the manual for troubleshooting steps.
- **Skipped Stitches:** This issue may be caused by a dull needle or incorrect tension settings, both of which should be addressed in the manual.
