Specifically, this latest edition contains three changes to Section 4.6: Risk analysis principles applied by the Codex Committee on Residues of Veterinary Drugs in Foods, 1) a revision of Annex C: Approach for the extrapolation of maximum residue limits for veterinary drugs to one or more species; 2) the inclusion of Annex D: Criteria and procedures for the establishment of action levels for residues of veterinary drugs in food of animal origin resulting from unavoidable and unintentional veterinary drug carryover in non-target animal feed; and 3) a consequential amendment to paragraph 133, Establishment of priority list. In Section 5.1: Table of committees, document references and terms of reference, following the decision by the Commission to reactivate the Codex Committee on Cereals, Pulses and Legumes, this committee was moved from "commodity committees (adjourned sine die)" to "commodity committees (active)". Finally, editorial changes have been made to more consistently apply abbreviations and provide more accurate cross-referencing by numbering subsections.
