ceces study guides: *Seating and Wheeled Mobility* Michelle L. Lange, Jean L. Minkel, 2024-12-30 Fully updated and expanded in its second edition, *Seating and Wheeled Mobility: A Clinical Resource Guide* presents clinical assessment considerations when working with a person with a mobility disability. The book provides a wide spectrum of information, from foundational information for those practitioners who are new to the field, to in-depth, population-specific information for practitioners who perhaps have not worked with a particular population in the past. The book is divided into sections, each section addressing a different area of clinical practice in wheelchair seating and mobility. The first section is an in-depth presentation of the assessment process and pressure management. The range of available seating supports is presented as part of the product selection process, including matching the person's needs with available technology. The second section focuses on 24-hour postural care. Three types of sitters are presented: hands-free, hands-dependent, and prop sitters. Included is the most current method to measure and describe the

seated person and related support surfaces needed when recommending a device. The third section lays the foundation for clinical decision making around the selection and fit of the most appropriate wheeled mobility device – manual/power wheelchair or scooter. The fourth section provides in-depth clinical applications for each mobility category. On-time mobility for the very young, power seating, and mobility skills training are addressed. The fifth section provides population specific clinical application of position, pressure management, and mobility for the pediatric, geriatric, and bariatric populations, as well as persons with both degenerative and complex neuromuscular impairments. The sixth section presents additional considerations when working with persons who are aging with a disability, considerations of the environment of use, safe transport of a wheelchair, and the application of wheelchair standards in the clinic. Finally, measuring outcomes throughout the service provision process and a look at the past, present, and future of complex rehab technology is included. Richly illustrated throughout, this book has been carefully designed to support occupational and physical therapists, suppliers/distributors, and funders/payers who are interested in wheelchair seating and mobility assessment and applications.

ceces study guides: *Unworthy, Chosen, and Forgiven* Michael Gilcreast, 2022-03-16 I thought long and hard before I even imagined to write any book, but somehow people just kept telling me to write a book out of the blue. I started to write, and nothing came of it for over ten years. I have only made it to page 44 of my manuscript. My biggest question, which led to my real motivation to write, was How can different people from different states I visited kept telling me the same thing? Could they all be wrong? It was in March 2020, everything was shut down, I was in attendance at the AFFI mini-convention in Maryland, and it was closed down by the governor. Therefore, from all points in my life, God made sure that I would write. I was out of excuses and I just encouraged myself to write the movie-like book of my life. I have done many one-on-one, premarital, marriage pastoral feedback sessions, inside and outside the church. I only came to find out in some way, shape, or form that people have problems of sorts that were similar to my own. I think of myself as an unorthodox writer and now pastor/author that loves the truth with the desire to be a help for people. I now see a new parallel that was within me all along because my first passion was to become a doctor, so I could help people. More than half of my life have either been in the Air Force or working for the Department of Defense at the Pentagon in some type of full-time capacity. I even survived the war act of September 11 (911)! Yet I have a story to tell, starting from a dysfunctional family to chasing women, becoming a womanizer, stories of infidelity, unemployment, lying, stealing, divorce, bad credit, bankruptcy, gambling, and even several attempts to commit suicide! If the truth be told, I never thought that I would live past the age of thirty-five! While I thought that I was unworthy, I found out that God had chosen me to live again and to tell my story and to be the pastor that I am today! I was truly a lost soul! On this same path of my life, I have found redemption and a second chance to experience true and unconditional love in the form of Melody. A love that could have only been birthed by God's grace! Truly, my soul loves Jesus!
