leadership textbooks: The Essence of Leadership Edwin A. Locke, 1999-01-01 The Essence of Leadership presents a model for successful leadership that is based on real leaders rather than abstract theory. Edwin A. Locke examines the styles and methods of corporate giants and distills their common characteristics and skills into a prototype for effective leadership that any aspiring corporate or organizational leader can follow. His model is based on four elements a leader possesses: motives and personal traits; knowledge, skills and ability; vision; and the capacity to realize that vision. Locke shows how his model works in the real world by applying it to David Garvin's study of sixteen Japanese and American manufacturers of air conditioners. From these

real-life examples, Locke concludes that it is indeed leadership that makes or breaks the success of a company. General readers looking for practical guidelines to effective leadership will be especially interested in this book.

Key takeaways from the book include: Believe in Yourself. Believing in oneself is the essential first step in developing leadership competencies. The best leaders are learners, and they can't achieve mastery until and unless they truly decide that inside them there is a person who can make a difference and learn to be a better leader than they are right now. Aspire to Excel. To become an exemplary leader, people must determine what they care most about and why they want to lead. Leaders with values-based motivations are the most likely to excel. They also must have a clear image of the kind of leader they want to be in the future—and the legacy they want to leave for others. Challenge Yourself. Challenging oneself is critical to learning leadership. Leaders must seek new experiences and test themselves. There will be inevitable setbacks and failures along the way that require curiosity, grit, courage, and resilience to persist in learning and becoming the best. Engage Support. One can't lead alone, and one can't learn alone. It is essential to get support and coaching on the path to achieving excellence. Whether it's family, managers at work, or professional coaches, leaders need the advice, feedback, care, and support of others. Practice Deliberately. No one gets better at anything without continuous practice. Exemplary leaders spend more time practicing than ordinary leaders. Simply being in the role of a leader is insufficient. To achieve mastery, leaders must set improvement goals, participate in designed learning experiences, ask for feedback, and get coaching. They also put in the time every day and make learning leadership a daily habit. Kouzes and Posner offer unrivaled insights into what it means to become an exemplary leader in today's world with their original research and over 30 years of experience studying the practices of extraordinary leadership. They show that anyone can become a better leader if they believe in themselves, aspire to excel, challenge themselves to grow, engage the support of others, and practice deliberately. *Learning Leadership* challenges readers to do the meaningful and disciplined work necessary to becoming the best they can, using a new mindset and toolkit that can make extraordinary things happen. It's not the once-in-a-while transformational acts that demonstrate leadership. It's the little things that one does day in and day out that pave the path to greatness.

Featuring the thinking of today's most renowned scholars, the Handbook of Leadership Theory and Practice will be a catalyst for elevating leadership to a higher intellectual plane - and help shape the research agenda for the next generation of leadership scholars.
