klear textbooks: *Korean Composition* Pong Ja Paik, Ji Young Kwak, Ji Hyon Choi, 2002-02-28
Korean Composition is the first book in English for students of Korean language aimed not only at enhancing their writing skills and overall linguistic competence, but also at organizing and developing their ideas and thoughts with grammatically, stylistically, and culturally correct expressions. The Essential Composition section contains chapters concerned with the writing of essays, diaries and letters, document preparation, and expository writing. The Advanced Composition section considers descriptions of impressions, writing poetry, newspaper accounts, writing articles and theses, and summarizing. Each chapter consists of numerous units designed to cover words, phrases, idioms, and grammatical patterns (with sentence examples). Exercises and a model writing example are included in each unit. Advanced students who need assistance in choosing proper topics and materials as well as in using diverse expressions in creative writing will benefit from the section on steps of composition and styles of writing. English translations of model writings, an index of useful grammatical patterns, and an English-Korean glossary are provided at the end of the text. Korean Composition is aimed at college-level students who have completed at least beginning and intermediate levels of Korean. For students using the Integrated Korean series, this text is recommended for use after the completion of Advanced Intermediate 2.

klear textbooks: Selected Readings in Korean Ho-min Sohn, Heisoon Yang, 2003-11-30 The first advanced Korean reading text for non-native speakers, *Selected Readings in Korean* consists of eighteen lessons on diverse, stimulating topics such as Korean traditions, culture, and society. It is designed for use by students who have completed the fourth-year level in Korean (approximately five hundred class hours) or the equivalent. Each lesson consists of six sections: prereading group activities, which not only serve as a schema for efficient comprehension of the reading text to follow, but also help students broaden their relevant knowledge; an authentic main reading text on an informative and interesting topic; explanations in Korean and English of words that may be unfamiliar to students, including words indicating abstract or culture-specific concepts; explanations of idiomatic expressions; extensive exercises intended to help students master the contents of the text, new vocabulary, and grammar while improving their composition and oral presentation skills; and post-reading activities designed to further thinking and group discussion on subjects related to the main topic of the lesson. Appended are translations of the main reading texts of all eighteen lessons and a Korean-English glossary. Overall, special effort has been made to render the volume learner-centered and learner-friendly.
