Excerpt from *Introduction to English Literature: Including a Number of Classic Works, With Notes*
This work is an attempt to solve the problem of teaching English literature. The ordinary manuals, it is believed, have ceased to give general satisfaction. This result was inevitable; for the principle upon which they are based is fundamentally at variance with educational science. While containing a great deal about English literature, these works do not teach English literature itself; and it is not unusual for a student to finish them without being acquainted with a single classic work, or having acquired the least fondness for sterling literature. It is the recognition of these facts that has caused many teachers to desire and seek something better. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. english literature textbooks: *English Literature* William J. Long, Ph.d., 2013-03-07 English Literature. Study & Teaching Its History and its Significance for the Life of the English-Speaking World. Large Format Publication for your Reading Pleasure. English literature is the literature written in the English language, including literature composed in English by writers not necessarily from England; for example, Robert Burns was Scottish, James Joyce was Irish, Joseph Conrad was Polish, Dylan Thomas was Welsh, Thomas Pynchon is American, V.S. Naipaul was born in Trinidad, and Vladimir Nabokov was Russian, but all are considered important writers in the history of English literature. In other words, English literature is as diverse as the varieties and dialects of English spoken around the world in countries originally colonized by the British. In academia, the term often labels departments and programs practicing English studies in secondary and tertiary educational systems. Despite the variety of authors of English literature, the works of William Shakespeare remain paramount throughout the English-speaking world. Until the early 19th century, this article deals with literature from Britain written in English; then America starts to produce major writers and works in literature. In the 20th century America and Ireland produced many of the most significant works of literature in English, and after World War II writers from the former British Empire also began to challenge writers from Britain.
