ccbc textbooks: *Critical Multicultural Analysis of Children's Literature* Maria José Botelho, Masha Kabakow Rudman, 2009-05-07 Children's literature is a contested terrain, as is multicultural education. Taken together, they pose a formidable challenge to both classroom teachers and academics.... Rather than deny the inherent conflicts and tensions in the field, in *Critical Multicultural Analysis of Children's Literature: Mirrors, Windows, and Doors*, Maria José Botelho and Masha Kabakow Rudman confront, deconstruct, and reconstruct these terrains by proposing a reframing of the field.... Surely all of us – children, teachers, and academics – can benefit from this more expansive understanding of what it means to read books. Sonia Nieto, *From the Foreword* Critical multicultural analysis provides a philosophical shift for teaching literature, constructing curriculum, and taking up issues of diversity and social justice. It problematizes children's literature, offers a way of reading power, explores the complex web of sociopolitical relations, and deconstructs taken-for-granted assumptions about language, meaning, reading, and literature: it is literary study as sociopolitical change. Bringing a critical lens to the study of multiculturalism in children's literature, this book prepares teachers, teacher educators, and researchers of children's literature to analyze the ideological dimensions of reading and studying literature. Each chapter includes recommendations for classroom application, classroom research, and further reading. Helpful end-of-book appendixes include a list of children's book awards, lists of publishers, diagrams of the power continuum and the theoretical framework of critical multicultural analysis, and lists of selected children's literature journals and online resources.

ccbc textbooks: **The Hidden Adult** Perry Nodelman, 2008-09-30 What exactly is a children's book? How is children's literature defined as a genre? A leading scholar presents close readings of six classic stories to answer these questions and offer a clear definition of children's writing as a distinct literary form. Perry Nodelman begins by considering the plots, themes, and structures of six works: *The Purple Jar*, *Alice in Wonderland*, *Dr. Doolittle*, *Henry Huggins*, *The Snowy Day*, and *Plain City*—all written for young people of varying ages in different times and places—to identify shared characteristics. He points out markers in each work that allow the adult reader to understand it as a children's story, shedding light on ingrained adult assumptions and revealing the ways in which adult knowledge and experience remain hidden in apparently simple and innocent texts. Nodelman then engages a wide range of views of children's literature from authors, literary critics, cultural theorists, and specialists in education and information sciences. Through this informed dialogue, Nodelman develops a comprehensive theory of children's literature, exploring its commonalities and shared themes. *The Hidden Adult* is a focused and sophisticated analysis of children's literature and a major contribution to the theory and criticism of the genre.

ccbc textbooks: *Intersections of Gender and Ethnicity in English Language Learning Texts* Amy Burden, 2023-08-01 *Intersections of Gender and Ethnicity in English Language Learning Texts* offers a fresh and relevant interrogation of educational materials for all students, researchers, and educators engaging in critical language study. Drawing on her own extensive research, Amy Burden offers up a first-of-its-kind critical linguistic analysis of gender and ethnicity representation in English Language Learning materials and an update for the US ESL textbook market 40 years overdue. Using accessible definitions, explanations, and examples of critical race, corpus, literary, and feminist theories, Burden systematically deconstructs the theoretical and textual ways in which gender representations reinforce patriarchal ideologies. Ultimately, Burden argues that Critical Literacy and Critical Race Pedagogy are necessary tools for ensuring equitable, egalitarian representation and combatting the harmful impact that these themes have had on readers and communities.
