

textbooks pcc

textbooks pcc are an essential resource for students attending Pasadena City College (PCC). These materials not only provide foundational knowledge in various subjects but also enhance the learning experience by aligning with course objectives. This article will delve into the various aspects of textbooks at PCC, including how to find the right textbooks, the importance of textbooks in the curriculum, options for purchasing or renting, and the role of digital resources. By understanding these facets, students can optimize their academic journey and make informed decisions regarding their educational resources.

- Frequently Asked Questions

Understanding the Importance of Textbooks at PCC

Textbooks play a pivotal role in the educational framework at Pasadena City College. They serve as primary sources of information, providing students with the necessary content to succeed

academically. Textbooks are carefully selected by instructors to align with course objectives, ensuring that students have access to the most relevant and effective materials. This alignment not only enhances comprehension but also encourages critical thinking and application of knowledge.

Moreover, textbooks often include exercises, case studies, and real-world applications that bridge the gap between theory and practice. By engaging with these materials, students develop a deeper understanding of their subjects, which is crucial in a community college setting where many students are preparing for transfer to four-year institutions or entering the workforce directly.

Where to Find Textbooks for Your Courses

On-Campus Resources

Pasadena City College provides several resources for students to find the textbooks they need for their classes. The PCC bookstore is a primary location where students can purchase or rent required texts. The bookstore carries both new and used textbooks, which can significantly reduce costs. In addition, the bookstore often offers a buyback program at the end of the semester, allowing students to recoup some of their expenses.

Online Platforms

In today's digital age, many students also turn to online platforms to find textbooks. Websites such as Amazon, Chegg, and eBay offer a wide range of options, including new, used, and rental textbooks. Students should compare prices across different platforms to ensure they are getting the best deal. Additionally, many online retailers provide the option to purchase eBooks, which can be a more affordable and accessible alternative.

Buying vs. Renting Textbooks

When it comes to textbooks at PCC, students often face the decision of whether to buy or rent their materials. Each option has its pros and cons, and understanding these can help students make informed choices.

Benefits of Buying Textbooks

- **Ownership:** Buying textbooks gives students the freedom to annotate, highlight, and use the book as they see fit.
- **Resale Value:** Students can sell their textbooks after the course ends, potentially recovering some of their initial investment.
- **Future Reference:** Owning a textbook allows students to revisit the material for future classes or personal study.

Benefits of Renting Textbooks

- **Cost-Effective:** Renting textbooks is typically cheaper than buying, making it an attractive option for budget-conscious students.
- **No Long-Term Commitment:** Students can use the book for the semester without the obligation to keep it afterward.

- **Access to Latest Editions:** Rental services often provide access to the most current editions of textbooks.

Digital Textbooks: A Modern Alternative

As technology continues to evolve, digital textbooks have become an increasingly popular option among students at PCC. These eBooks offer a range of advantages that traditional print textbooks may not provide.

Advantages of Digital Textbooks

- **Portability:** Digital textbooks can be accessed on various devices, making them convenient for students who are always on the go.
- **Interactive Features:** Many eBooks come with interactive elements, such as quizzes, videos, and hyperlinks, enhancing the learning experience.
- **Search Functionality:** Digital formats allow students to quickly search for specific topics or terms, saving time and improving study efficiency.

Tips for Managing Textbook Costs

Textbooks can be a significant expense for students, but there are several strategies to manage these

costs effectively. By being proactive and resourceful, students can minimize their financial burden.

Consider Used Books

Purchasing used textbooks is a great way to save money. Many students sell their books at the end of each semester, and these used copies can often be found at a fraction of the original price. The PCC bookstore also offers a selection of used books, which can be an excellent starting point.

Utilize Library Resources

PCC's library is another valuable resource for students looking to access textbooks without the high cost. Many textbooks are available for short-term loans, allowing students to use the materials for study without purchasing them outright. Additionally, libraries may offer digital versions of textbooks, further increasing accessibility.

Form Study Groups

Joining or forming study groups can also be beneficial. By sharing textbooks among group members, students can reduce individual costs while enhancing their understanding of the material through collaborative learning.

Check for Financial Aid Options

Students should explore financial aid options that can assist in covering textbook costs. Some programs specifically allocate funds for educational materials, and it is worth investigating what

resources are available at PCC.

Frequently Asked Questions

Q: What is the average cost of textbooks at PCC?

A: The average cost of textbooks at Pasadena City College can vary widely depending on the course and specific materials required. However, students can expect to spend several hundred dollars each semester on textbooks alone.

Q: Can I find textbooks for free at PCC?

A: While free textbooks may not be readily available, students can utilize library resources to borrow textbooks or access digital versions without cost. Additionally, some instructors may provide online resources or materials at no charge.

Q: What are the best places to rent textbooks near PCC?

A: Students can rent textbooks at the PCC bookstore, online platforms like Chegg and Amazon, and even local bookstores. It's advisable to compare prices and rental terms to find the best deal.

Q: Are there any specific programs at PCC to help with textbook costs?

A: Yes, Pasadena City College has various financial aid programs and initiatives that can assist students with textbook costs. Students are encouraged to meet with financial aid advisors to explore available options.

Q: How can I ensure I have the correct textbooks for my classes?

A: To ensure you have the correct textbooks, you should check the course syllabus provided by your instructor or visit the PCC bookstore, which lists required materials for each course.

Q: What should I do if I can't afford my textbooks?

A: If you cannot afford your textbooks, consider exploring library resources, investigating financial aid options, or discussing your situation with your instructors, who may provide alternative resources or solutions.

Q: Are there any online resources for accessing textbooks?

A: Yes, many online platforms offer access to a wide range of textbooks, including digital versions. Websites such as OpenStax and Project Gutenberg provide free educational resources that may be helpful.

Q: How often do textbooks change at PCC?

A: Textbook editions may change frequently, often every few years, depending on the subject and publisher. It is important to verify the required edition for your course with your instructor or the bookstore.

Q: Is it possible to sell my textbooks back to PCC?

A: Yes, the PCC bookstore offers a buyback program at the end of each semester where students can sell their used textbooks for cash or store credit.

Q: Can I find digital versions of my textbooks?

A: Many textbooks now have digital versions available for purchase or rent. Check with the PCC bookstore or popular online retailers to see if a digital format is available for your required texts.

textbooks pcc: *Radiobiology Textbook* Sarah Baatout, 2023-09-23 This open access textbook focuses on the various aspects of radiobiology. The goal of radiobiological research is to better understand the effects of radiation exposure at the cellular and molecular levels in order to determine the impact on health. This book offers a unique perspective, by covering not only radiation biology but also radiation physics, radiation oncology, radiotherapy, radiochemistry, radiopharmacy, nuclear medicine, space radiation biology & physics, environmental and human radiation protection, nuclear emergency planning, molecular biology and bioinformatics, as well as the ethical, legal and social considerations related to radiobiology. This range of disciplines contributes to making radiobiology a broad and rather complex topic. This textbook is intended to provide a solid foundation to those interested in the basics and practice of radiobiological science. It is a learning resource, meeting the needs of students, scientists and medical staff with an interest in this rapidly evolving discipline, as well as a teaching tool, with accompanying teaching material to help educators.

textbooks pcc: *Textbook of Adult-Gerontology Primary Care Nursing* Debra J Hain, Deb Bakerjian, Debra Bakerjian, 2022-02-21 I was thrilled to see content that focuses on quality improvement, patient safety, interprofessional collaboration, care coordination, and other content that supports the role of the AGNP as a clinical leader and change agent. The authors give these topics the attention that they deserve, with clear, insightful guidance and importantly, the evidence base. The chapters that address roles (including during disasters!), settings of care, billing, and medication use address salient issues that will help the fledgling AGNP to hit the ground running and the seasoned AGNP to keep current. -Marie Boltz, PhD, GNP-BC, FGSA, FAAN Elouise Ross Eberly and Robert Eberly Endowed Professor Toss and Carol Nese College of Nursing, Penn State University From the Foreword Written for Adult-Gerontology Primary Care Nurse Practitioners, faculty, and students, this primary text encompasses the full scope of AGNP primary care practice across multiple healthcare settings including telehealth. The text emphasizes the best available evidence to promote person-centered care, quality improvement of care, interprofessional collaboration, and reducing healthcare costs. The text delivers timely information about current healthcare initiatives in the U.S., including care coordination across the healthcare continuum, interprofessional collaboration, and accountable care organizations. Disease-focused chapters contain general and specific population-based assessment and interprofessional care strategies to both common and complex health issues. They offer consistent content on emergencies, relevant social determinants of health, and ethical dilemmas. The text also prepares students for the

administrative aspects of practice with information on the physical exam, medications, billing, coding, and documentation. Concise, accessible information is supported by numerous illustrations, learning objectives, quality and safety alerts, clinical pearls, and case studies demonstrating best practice. A robust ancillary package includes an Instructor's Manual with case studies and teaching guides, a Test Bank reflective of clinical situations and patient conditions, PowerPoints covering key concepts, and an Image Bank of skin conditions and other figures. Key Features: Covers several key courses in the curriculum for ease of teaching/learning Embraces a broad population focus addressing specific care needs of adolescents through older adults Facilitates safe care coordination and reinforces best practices across various health care settings including telehealth Fosters understanding, diagnosis, and management of patients with multimorbid conditions Incorporates evidence-based practice information and guidelines throughout, to ensure optimal, informed patient care A robust ancillary package includes an Instructor's Manual, a Test Bank, PowerPoints, and an Image Bank.

textbooks pcc: *Textbook of Neuroanesthesia and Neurocritical Care* Hemanshu Prabhakar, Zulfiqar Ali, 2019-04-30 This two-volume book offers a comprehensive guide to anesthetic management and critical care management in neurosurgical and neurological patients. This second volume focuses on neurocritical care. The book begins with basic information on the principles of neurocritical care. Management of various neurological problems such as myasthenia gravis, Guillain-Barré syndrome, epilepsy, stroke and many more are discussed in detail. Subsequent sections address nursing care, physiotherapy and psychological care, issues related to brain death and organ donation, and common complications observed in neurological patients during their ICS stays. Each complication is discussed in detail, guiding readers in their clinical practice. In turn, the book's closing chapters cover e.g. the role of hypothermia and evidence-based practice. The book offers a valuable resource for all residents, fellows and trainees in the fields of neurointensive care and critical care; it will also benefit intensivists and neurocritical care experts.

textbooks pcc: *Textbook of Endocrine Surgery* Amit Agarwal, Roma Pradhan, Anand Kumar Mishra, Dhalapathy Sadacharan, Deepak Abraham, 2022-09-30 This book is a guide to endocrine surgery for practising and trainee endocrinologists. Divided into 45 chapters, the text begins with an overview of applied embryology, physiology, and surgical anatomy of the endocrine glands. The next section explains thyroid function tests and their interpretation. Each of the following chapters covers the surgical management of a different thyroid-related disorder. The final sections discuss allied topics including endocrine radiology, pathology, the role of nuclear medicine in endocrine surgery, and radiotherapy. Each chapter concludes with clinical pearls to assist learning. With an internationally recognised editor and author team, the comprehensive text is highly illustrated with photographs, radiographic images, flow charts, and diagrams.

textbooks pcc: *The American Psychiatric Association Publishing Textbook of Schizophrenia, Second Edition* Jeffrey A. Lieberman, M.D., T. Scott Stroup, M.D., M.P.H., Diana O. Perkins, M.D., M.P.H., Lisa B. Dixon, M.D., M.P.H., 2020-01-30 Schizophrenia remains the most challenging of mental disorders confronted by psychiatrists and other mental health providers. Its primary manifestations-psychotic symptoms and cognitive impairment-profoundly affect the functioning of individuals with schizophrenia. This is an updated textbook covering the current state of knowledge about schizophrenia, including its causes, nature, presentation, and treatment. Chapters are written by a roster of experts in --

textbooks pcc: *Textbook of Endocrine Surgery* Orlo H Clark, Quan-Yang Duh, Electron Kebebew, Jessica E Gosnell, Wen T Shen, 2016-02-29 Textbook of Endocrine Surgery, Third Edition, is the latest edition of this highly illustrated, comprehensive guide. Edited by professors from the University of California, San Francisco, this authoritative textbook covers surgical procedures for a broad range of endocrine conditions. Comprised of four sections, divided into 81 chapters, this book examines disorders of the thyroid, parathyroid and adrenal glands, as well as neuroendocrine tumours of the pancreas and gastrointestinal tract. All chapters have been extensively revised and updated, and many new chapters have been added to this edition to reflect recent advances in the

field. This book provides up to date information on aetiology, embryology, anatomy, clinical manifestations, diagnostic and localisation procedures, surgical and other treatment modalities for endocrine disorders. Enhanced by 550 full colour images and illustrations, Textbook of Endocrine Surgery is an invaluable resource for surgeons and endocrinologists. Key Points New edition of this richly illustrated, comprehensive guide to endocrine surgery Previous edition published 2005 (9780721601397) Editorial team from the University of California, San Francisco 550 full colour images and illustrations

textbooks pcc: *Textbook of Neurointensive Care: Volume 1* Elizabeth Mahanna Gabrielli, Kristine H. O'Phelan, Monisha A. Kumar, Joshua Levine, Peter Le Roux, Andrea Gabrielli, A. Joseph Layon, 2024-10-21 This extensively updated edition provides a comprehensive review of intensive care for neurologically injured patients from the emergency room and ICU through the operating room and post-surgical period in two comprehensive volumes. The Editors of this first volume present a comprehensive textbook that incorporates best practice/evidence-based medicine and performance improvement, while it champions the three characteristics needed in our neuro-ICUs: patient and family centered high-quality care, education, and discovery. This volume concentrates on neuroanatomy, diagnostic assessment and disease management, examining the neurological problems most frequently seen in intensive care, and describes the various types of neurosurgery and critical features of the management of patients. General issues are discussed across the textbook, such as cardiac care, fluids and electrolytes, nutrition, and monitoring as well as more specific conditions and complications including elevated intracranial pressure, seizures, and altered mental states. Listening to an injured brain is not easy. It takes knowledge, dedication, and understanding of the critically ill patient and their family. Textbook of Neurointensive Care Volume 1: Neuroanatomy, Diagnostic Assessment, Disease Management provides the reader with a detailed resource for studying this most complex area of medicine. It is thus essential reading for all trainees and professionals in critical care, neurosurgery, anesthesia and neurology.

textbooks pcc: *A Textbook of Railroad Engineering* International Correspondence Schools, 1898

textbooks pcc: *The ESC Textbook of Thrombosis* Raffaele De Caterina, David Moliterno, Steen Kristensen, 2023-10-07 The ESC Textbook of Thrombosis is the third iteration of Therapeutic Advances in Thrombosis. Now a new addition to the European Society of Cardiology (ESC) publications portfolio, it is informed by the work of the ESC's Working Group on Thrombosis. Written by internationally renowned experts in the field of thrombosis, the textbook presents an up-to-date and in-depth review of all aspects of thrombosis and antithrombotic therapies. Not only does it reflect contemporary European guidelines from the ESC but also it also summarizes the latest evidence from clinical trials. Covering the topic in great detail with thirty-one chapters, the textbook is split into four sections: Pathophysiology of thrombosis, Clinical pharmacology of antithrombotic drugs, Therapeutic strategies, and Special situations. Appealing to the large community of cardiovascular healthcare specialists in Europe and across the world, the textbook is a must read for cardiologists dealing with acute and chronic coronary syndromes, atrial fibrillation, artificial heart valves and pulmonary embolism. It will also appeal to cardiac surgeons, cardiovascular researchers, and general physicians alike.

Hemophilia, 3rd edition is the definitive reference source on all aspects of haemophilia including diagnosis, management and treatment. Edited by three, world-renowned experts on haemophilia, this completely revised resource features chapters written by over 60 international contributors with international expertise in caring for haemophilia patients. Textbook of Hemophilia, 3rd edition Features eight new chapters, covering individualised dosing, vCJD and haemophilia, new drugs in the pipeline, and surgery in inhibitor patients Presents new developments, such as gene therapy Highlights controversial issues and provides advice for everyday clinical questions Represents essential reading for all healthcare professionals involved in the care of those with haemophilia Titles of related interest Hemophilia and Hemostasis: A Case-Based Approach to Management, 2nd Edition Ma, ISBN: 9780470659762 Current and Future Issues in Hemophilia Care Rodriguez-Merchan, ISBN: 9780470670576 www.wiley.com/go/hematology

textbooks pcc: Oxford Textbook of Obstetrics and Gynaecology Sabaratnam Arulkumaran, William Ledger, Lynette Denny, Stergios Doumouchtsis, 2020-01-16 The Oxford Textbook of Obstetrics and Gynaecology is an objective and readable text that covers the full speciality of obstetrics and gynaecology. This comprehensive and rigorously referenced textbook will be a vital resource in print and online for all practising clinicians. Edited by a team of four leading figures in the field, whose clinical and scientific backgrounds collectively cover the whole spectrum of obstetrics and gynaecology with particular expertise in fetomaternal medicine and obstetrics, gynaecological oncology, urogynaecology, and reproductive medicine, the textbook helps inform and promote evidence-based practice and improve clinical outcomes worldwide across all facets of the discipline. The editors are supported by contributors who are internationally renowned specialists and ensure high quality and global perspective to the work. Larger sections on the Basics in Obstetrics and Gynaecology, Fetomaternal Medicine, Management of Labour, Gynaecological problems, and Gynaecological Oncology are complimented by specialist sections on areas such as Neonatal Care and Neonatal Problems, Reproductive Medicine, and Urogynaecology and Pelvic Floor Disorders to name a few. The evidence-based presentation of diagnostic and therapeutic methods is complemented in the text by numerous treatment algorithms, giving the reader the knowledge and tools needed for effective clinical practice. The Oxford Textbook of Obstetrics and Gynaecology is essential reading for obstetricians and gynaecologists, subspecialists, and trainees across the world.

textbooks pcc: Rogers's Textbook of Pediatric Intensive Care Donald H. Shaffner, John J. McCloskey, Elizabeth A. Hunt, Robert C. Tasker, 2023-08-14 Long recognized as the leading text in this dynamic field, Rogers' Textbook of Pediatric Intensive Care provides comprehensive, clear explanations of both the principles underlying pediatric critical care disease and trauma as well as how these principles are applied. Led by Drs. Donald H. Shaffner, John J. McCloskey, Elizabeth A. Hunt, and Robert C. Tasker, along with a team of 27 section editors as well as more than 250 expert global contributors, the fully revised Sixth Edition brings you completely up to date on today's understanding, treatments, technologies, and outcomes regarding critical illness in children.

textbooks pcc: ESPNIC Children's Intensive Care Textbook Joe Brierley, Pierre Tissieres, Akash Deep, 2025-07-01 This textbook provides the fundamental of children's critical care from a European perspective. It offers a valuable guide for beginners as well as for clinicians working in Intensive Care and allied professionals including the role of an ICU in a modern children's hospital, specific situations and clinical practice achievements including techniques and the more appropriate therapies to be applied in different conditions. A section is devoted to specific organs – lung, heart and circulation, kidney and RRT, gut, brain, liver and pancreas, inflammation, immunity and sepsis, metabolism and metabolic diseases in ICU – whilst other to Cardiac Critical Care and Neuro Critical Care. Edited and written by renowned key opinion leaders in the field, all chapters use a learning-oriented style, with practical examples, key points and take-home messages, so that readers can easily learn the content and, at the same time, apply what they have learned in the clinical setting. ESPNIC Children's Intensive Care Textbook is also the prime textbook for the EPIC Diploma, matching the published international consensus curriculum and it is accompanied by an MCQ, in the

fashion of the exam style.

textbooks pcc: *Oxford Textbook of Critical Care* Derek Angus, Simon Finfer, Luciano Gattioni, Mervyn Singer, 2019-12-03 Now in paperback, the second edition of the Oxford Textbook of Critical Care addresses all aspects of adult intensive care management. Taking a unique problem-orientated approach, this is a key resource for clinical issues in the intensive care unit.

textbooks pcc: *Oxford Textbook of Shared Decision Making in Healthcare* , 2025-08-21
Healthcare systems around the world are placing increasing importance on the relationship between patient choice and clinical decision-making, with many countries having shared decision making as a central theme in their healthcare policy developments. The concept of shared decision making (SDM) in healthcare is simple: clinicians and patients work together when solving problems and making decisions. However, the context and implementation are more challenging. Written by a global team of experts, the Oxford Textbook of Shared Decision Making, fourth edition, examines from both theoretical and practical perspectives, what comprises an effective decision making process, looking at the benefits and potential difficulties that arise when patients and clinicians share healthcare decisions. The first sections cover the theory, methods, and implementation of SDM. Later sections examine SDM from the viewpoints of different clinical and surgical specialities, and allied disciplines such as nursing, pharmacy, and midwifery. Each chapter contains reflections from a patient partner with lived experience of SDM, giving a truly diverse and collaborative account of how SDM can work between patients, families, carers, and healthcare professionals. Authoritative, evidence based, and grounded in clinical practice, the Oxford Textbook of Shared Decision Making explores a very important paradigm shift in the delivery of healthcare, providing thoughtful consideration and key strategies for its successful implementation.

textbooks pcc: *Oxford Textbook of Stroke and Cerebrovascular Disease* Bo Norrving, 2014-03-13 Stroke is a major health concern worldwide, and the epidemiological data is staggering. One in six people will have a stroke during the course of their life; it is the second most common cause of death; and stroke also ranks second among causes contributing to the global burden of disability. However, the burden of stroke can be alleviated: it is potentially preventable, treatable, and possible to manage long term. Despite continuing advances in our knowledge about this disease, there is currently still a large evidence-to-clinical practice gap in all regions. The Oxford Textbook of Stroke and Cerebrovascular Disease is a comprehensive textbook on clinical stroke, covering all major aspects of cerebrovascular disease including epidemiology, risk factors, primary prevention, pathophysiology, diagnostics, clinical features, acute therapies, secondary prevention, prognosis, and rehabilitation. It makes use of current pedagogic principles, and includes not only aspects on management in the acute hospital phase of stroke, but also public health issues, prevention, long-term management, and silent vascular disease (which is becoming increasingly epidemic in the general population). Topical aspects also include advice to improve clinical skills in examination, diagnosing, and treating stroke. The text also covers the fields of silent cerebrovascular disease (silent brain infarcts, microbleeds, white matter ischemic abnormalities) that more recently have been recognized to be highly prevalent in the general population, and that carry important risks on vascular events and cognitive decline/dementia. Chapters are written by a most distinguished group of international experts in the field of stroke from around the world, and have been carefully edited to ensure consistency in style and clarity of contents. The concurrent online version allows access to the full content of the textbook, contains links from the references to primary research journal articles, allows full text searches, and provides access to figures and tables that can be downloaded to PowerPoint®. Practical, easy to use, yet detailed with respect to pathophysiology, diagnostics, and management, this text provides a source of reference for the detection and management of all stroke and less common cerebrovascular diseases for practising and trainee neurologists, geriatricians, and all stroke physicians and clinicians.

textbooks pcc: *Textbook of Interventional Cardiology* Samir Kapadia, 2017-07-17 Interventional Cardiology is an extensive, richly illustrated guide to this field of medicine. The book is edited by internationally recognised experts, led by Professor Samir Kapadia. This book provides

comprehensive coverage of all aspects of interventional cardiology, across five sections, further divided into 88 chapters. The first section covers the evolution periprocedural pharmacology, beginning with chapters on the history of coronary intervention and concluding with clinical cases. The second section covers specific coronary interventions, taking either a disease-based or an anatomical approach. The chapters also provide information on individual patient groups, such as the elderly and diabetics. Detailed chapters on a range of devices used in interventional cardiology are included in this section. Further sections cover a wide range of peripheral and structural interventions, and the final chapter on general topics includes radiation protection, prevention and management of bleeding, and haemodynamic essentials. Enhanced by 700 full colour images, *Interventional Cardiology* is an authoritative resource for all cardiologists. Key Points Comprehensive, illustrated guide to interventional cardiology Edited by internationally recognised experts led by Prof Samir Kapadia 700 full colour images
