textbooks karnataka gov in: *Gujarat Under Modi* Christophe Jaffrelot, 2024-02-29 In 2012

Narendra Modi became the first Hindu nationalist politician thrice elected to lead a state of the Indian Union, his stewardship as Chief Minister of Gujarat being the longest in that state's history. Modi and his BJP supporters explained his achievement by pointing to economic growth under his leadership, yet detractors point out that Modi has been more business-friendly than market-friendly—to the benefit of large industrial corporations, and at the cost of great social polarisation. In 2002, an anti-Muslim pogrom of unparalleled ferocity occurred in Gujarat, leading to the biggest number of Muslim deaths since Partition. The state's Hindu majority immediately rallied around Modi. No serious riot has occurred in Gujarat since, but polarisation was key to Modi's strategy there, and he has deployed that strategy again and again since he became Prime Minister of India in 2014. For Modi has cultivated a communal image. A marketing genius, his messaging combines the politics of Hindutva with economic modernisation, to the clear appreciation of Gujarat's middle class. Christophe Jaffrelot's revealing book shows how Modi's Gujarat served as the laboratory of Modi's India, not only in terms of Hindu majoritarianism and national populism, but also of caste and class politics.

textbooks karnataka gov in: *Global Pandemic and Human Security* Rajib Shaw, Anjula Gurtoo, 2022-03-01 This book highlights how the human security aspect has been affected by the global pandemic, based on the specific case study, field data, and evidence. COVID-19 has exemplified that the pandemic is global, but its responses are local. The responses depend on national governance and policy framework, use of technology and innovation, and people's perceptions and behavior, among many others. There are many differences in how the pandemic has affected the rich and the poor, urban and rural sectors, development and fiscal sectors, and developed and developing nations and communities. Echoing human security principles, the 2030 Agenda emphasized a "world free of poverty, hunger, disease and want... free of fear and violence... with equitable and universal access

to quality education, health care, and social protection....to safe drinking water and sanitation... where food is sufficient, safe, affordable and nutritious... where habitats are safe, resilient and sustainable...and where there is universal access to affordable, reliable and sustainable energy.” These basic human security [PA1] principles and development agenda are highly affected by the global pandemic worldwide, irrespective of its development and economic status. Thus, the book highlights the nexus between human security and development issues. It has two major pillars, one is the development and the other is technology issues. These two inter-dependent topics are discussed in the perspective of the global pandemic, making this the most important feature of this book. While the world is still in the middle of a pandemic, and possibly other natural and biological hazards may affect peoples’ lives and livelihoods in the future, this book provides some key learning, which can be used to cope with future uncertainties, including climate risks. Thus, the book is timely and relevant to wider readers.
