korean workbooks: Integrated Korean Workbook Yuseon Yun, Jeeyoung Ahn Ha, Hee Chung Chun, 2020-08-31 Korean is the seventh most commonly spoken language in the United States, and

Korean heritage students—those with some proficiency in or a cultural connection to the language through family or community—make up a substantial portion of Korean learners at the college level. Many schools offer a separate heritage track for learning Korean, but until now there has been no textbook designed specifically for heritage learners as well as the increasing number of students from diverse backgrounds who are interested in pursuing intensive learning to build on their prior experience with Korean. Integrated Korean: Accelerated 1 and 2 directly address the linguistic needs and abilities of heritage and accelerated learners in a single academic year. Volume 1 presents lessons on thematically organized subjects, starting with familiar topics such as family, friends, daily routines, schoolwork, campus activities, dining out, and shopping. Volume 2 advances to more formal subjects beyond family and friends, such as travel, transportation, housing, holidays, lifestyles, careers, and Korean history and culture. Students approach the lessons with multilevel communicative classroom activities and reading materials with standards-based exercises and projects that not only address the particular language requirements of heritage learners, but also encourage them to participate more fully in their own family and community life. Each volume's textbook and workbook offer authentic conversations and texts in both informal and formal contexts, structured tasks, and a wealth of interesting and relevant cultural content. Integrated Korean is a project of the Korean Language Education and Research Center (KLEAR) with the support of the Korea Foundation. In addition to the five-level Integrated Korean textbooks and workbooks, volumes include Korean Composition, Korean Language in Culture and Society, Korean Reader for Chinese Characters, Readings in Modern Korean Literature, A Resource for Korean Grammar Instruction, and Selected Readings in Korean. korean workbooks: *Multicultural Education in South Korea* Mi Ok Kang, 2014-11-13 This book examines the political, ideological, and socio-cultural politics underlying the 2009 National Multicultural Curriculum Reform and recent multicultural education policies in South Korea. Unlike the conservative groups in Western countries who argue that supporting cultural diversity and the cultural rights of minority groups balkanizes ethnic differences and divides the community, the New Rights and the conservative groups in South Korea have been very supportive of multicultural discourses and practices and have created many multicultural policy agendas geared toward ushering in what have they called the multicultural era. Through the Critical Discourse Analysis (CDA) of government multicultural policy documents, a range of media sources, the 2009 national curriculum reform policy documents, and the 200 Korean language arts textbooks from 23 textbook publishers, *Multicultural Education in South Korea: Language, ideology, and culture in Korean language arts education* examines how the conservative Korean government's interpretation and practices of multiculturalism have been infiltrated and challenged by progressive and migrant-led agents/agencies. The analysis of academic, official, and popular discourses on migrant Others is focused on, but not limited to: The multicultural era and struggles for hegemonic power; Politics of multicultural knowledge control in education and society; Formation of discourses on multicultural society and multicultural education; Examining the national curriculum: The politics of representing migrant Others; and The hidden curriculum of multicultural education: Limitations and possibilities. The author's insightful discussion on the politics of knowledge, education, and teaching in multicultural societies will prove particularly useful to policy makers, think-tank officials, and academic scholars in education.
