workbook zzz: *Public Relations Writing Student Workbook* Donald Treadwell, Jill B. Treadwell, 2005 Treadwell & Treadwell's Student Workbook gives students the opportunity to put their learning into practice. The workbook introduces four fictional clients, two of them new, for which students may 'work' as they complete assignments. These clients include both commercial and non-profit organizations. A new 'Research' section bridges the gap between clients and the real world of the student's college city or region so that clients can be 'localized' to the student's area. This will also be useful for faculty who choose to assign actual or other fictional clients.

If you buy only one book on Excel, Special Edition Using Microsoft® Office Excel® 2007 is the book you need. Does your life play out in a spreadsheet? Do numbers in columns and rows make or break you in the work world? Tired of having numbers kicked in your face by other Excel power users who make your modest spreadsheets look paltry compared to their fancy charts and pivot tables? If you answered yes to any of these questions, Special Edition Using Microsoft® Office Excel® 2007 is the book that will make it all better. Learn quickly and efficiently from a true Excel master using the tried and true Special Edition Using formula for success. Here, you'll find information that's undocumented elsewhere—even in Microsoft's own Help systems. You'll learn from finely crafted, real-life examples built by an author who lives and dies by the integrity of his spreadsheets. Excel's backbone is its formulas and functions. Master those and you will master your spreadsheets. Special Edition Using Microsoft Office® Excel® 2007 provides more down and dirty help with your formulas and functions than you'll find in any other book! See how it's done in real life! Don't settle for lame pivot table and chart examples found in other books... This book provides beautifully detailed examples that not only show you how it should be done, but how to be the local worksheet hero!

workbook zzz: Talkabout Assessment of Social Skills Alex Kelly, Naomi Pearson, 2024-06-28 The purchase of the TASS manual includes access to the downloadable assessment tool for one user. If you would like to purchase additional downloads for multiple users please email TASS@tandf.co.uk. For more information on the TASS and the Talkabout series, as well as helpful videos and guidance developed by the authors, please visit <https://routledgelearning.com/TASS>. Talkabout Assessment of Social Skills (TASS) is an assessment tool using a software programme which allows education and healthcare professionals to input and analyse the assessment of social skills. It gathers information from key sources to provide a holistic view of a person's social communication and uses rating scales to enable quantitative analysis of intervention. The TASS includes a rating of a person's social communication skills (nonverbal, verbal and assertiveness) but also assesses a person within a broader context of social skills including associated factors and quality of life indicators, and an assessment of self-awareness and self-esteem. The TASS is divided into five sections: 1. Initial information: this section gathers information from significant others and includes reasons for referral, long-term goals, and an initial action plan. 2. Interview: a one-to-one interview to assess self-awareness and self-esteem. 3. Self-rating scale: an optional part of the assessment, dependent on age and ability, which asks the person to rate their own social communication and identify factors which are important to them. 4. TASS: an updated version of the original Talkabout Assessment Tool which includes sections on body language, the way we talk, conversational and assertiveness skills. 5. Summary: this final part provides summary charts of all sections and areas of high priority. The TASS software programme is supported by an accompanying manual, which includes an overview of the resource and guidelines for each section, in addition to worked examples and photocopiable versions of the digital forms. This complete assessment tool is a valuable resource for anyone working the area of social communication and is suitable for use by

both individual practitioners and teams. TASS should be run on Windows 10 with Java 11 or above installed. For best performance, use a 15+ inch display, a 1920 x 1080 or higher resolution and an I5 or above processor. The TASS software is not suitable for Macs.
